U S

Madison Tanner, RECE

I love being outside and I used to work as a canoe tripper at a camp in Algonquin park. I also love to be creative, whether it be with mixed art materials or doing improv comedy.

A third love of mine is bringing those elements of nature and creativity into the daycare room / schoolyard to share my passion with the children through interesting and fun activities!

Leilani Jordan, RCE

I'm a lover of nature, and I am always looking for good places to go hiking on weekends. I enjoy learning about plants and animals, and ways to lessen my impact on the environment.

My goal one day, is to be able to live closer with nature and have the space to grow a variety of foods.

Eleni Frimis, ECA

I was born and raised in Queens, New York. I am married and have 2 sons. I have been living in Toronto for almost 20 years, I have worked in daycare since 2009, and have worked at Jackman as an ECA since 2014.

I studied in New York and obtained an Associates degree in Liberal Arts and also studied Psychology and Sociology.

My hobbies are baking, creating art, listening to my favorite music, writing poetry, traveling, spending time at the beach, and collecting seashells.

Sophie Carlton, ECA

I have worked in childcare for almost 2 years now and I am currently working toward my diploma of early childhood education at Seneca college. In the future I hope to lead a preschool classroom.

In my spare time I love watercolour painting, going on bike trips, history podcasts and snuggles with my dog!
