

Mantra

Inspired Furniture

Design driven by a simple code.

Mantra

Inspired Furniture

Years ago a great business man passed down the simple code he lived by to his daughter. This code of ethics guided his daughter and her best friend through the trials and tribulations of creating a business of their own. Along the way, the women found new friends who live by a similar code. Together they created **Mantra Inspired Furniture** where that simple code lives within every design and is shared by those creating it.

Furniture That Inspires

-  **American made. American Inspired.**
Our Amish Craftsmen come from a long lineage of artisans that understand the definition of quality. Their talents have been passed down through generations to create objects of the Mantra Inspired Furniture ideas.
-  **Not your mother's Amish furniture.**
Mantra Inspired Furniture is designed by designers for designers.
-  **The wood sustainability truth.**
Many veneers use Multi Density Fiber (MDF) substrates with urea formaldehyde as a binding agent which consumes much more energy to create than our solid wood products. Veneer products have a much shorter life span than our solid wood products which can be refinished several times to extend life over generations. Where do veneer products go when they die? To the landfill with their chemical glues that seep into the earth.
-  **Unfettered creativity for your designs.**
Bring your ideas to us and let's see what we can do together. What will your Mantra inspiration create? The possibilities are endless.

THE
Clayborne
COLLECTION

Named after the code's author, solid strength of character embodies this collection from its dovetail joint details to its steel leg frame foundation. As was with its namesake, the gentleman's quality of being well dressed is inherent throughout its design.

Responsibly-produced
American hardwood
throughout.

Felt privacy panel
provides acoustic and
aesthetic appeal.

Storage for days
Credenza features box/
box/file on one side
and open shelving on
the other.

Book matched
continuous
grain offers a
character rich
appearance.

Modern and minimalistic, the Clayborne Collection pairs natural materials with clean design. Available in a variety of American hardwood and finishes, this collection fits any space and design language.

Bound only by your imagination.

Take these options and make them yours. Combine and coordinate with abandon. Don't see something you want? Challenge us with your "what ifs" and we will get to work on the solution to your creation.

Mantra

Inspired Furniture

There has never been a time that humankind has been without inspiration. It is what brought two Swiss Amish craftsmen together in the 1600's to create a friendship and build together. Centuries later two of their descendants would find each other again, but this time in America. And they found that inspiration to create and build, but this time with the two women who share the same type of code of ethics.

This is **Mantra Inspired Furniture**. Connections created through centuries with similar values.

Did you know?

It takes .17 seconds to grow 90 board feet of white oak for a 30" x 60" desk. How can this be? The Ohio hardwood forest growth outpaces removals by 2:1 and with the rapid rate of replacement it becomes simple math. Responsible forestry removes trees so that the canopy does not suffocate the new growth. This is the environmentally responsible process that we abide by. We intend to be part of the solution rather than part of the problem.

It matters.

The reasons behind each detail that embodies Mantra Inspired Furniture. It all matters and has purpose.

- Our solid wood construction speaks to quality and longevity.
- American made through the tradition of the Amish culture.
- Created to give designers opportunity for their own innovative designs.
- All the materials used in the Mantra Inspired Furniture products are carefully selected with sustainability in mind.
