I've been blessed to have lived here my entire life and have seen the continual changes Community from a blue collar community to a community where there are dual income families living with all different types of economic history. With having strong ties in this community there are typically a significant number of people that choose to move back after going away for years to raise a family. The obvious discussion that always comes up since my childhood is that this community has no diversity.

Madeira's motto is the "Friendly Town". I feel Madeira is friendly and welcoming to me.

I'm having strong ties in this community since childhood, there are examples when families choose to go a different direction for their child because they are seeking out other educational opportunities. The problem that this town has which many towns have with the high taxes and high property values is that those who are in the older generation living on a fixed income find it harder to have the same quality of life living in this community as they did when they were fully employed it would benefit. I did not have a call the answer for that one other than I have seen countless examples over the last 50 plus years of family reaching out to those in that situation to assist them. It truly is a friendly Town coming together to help those in need.

I think Madeira can work to be more friendly and welcoming.

Is a great question to ask in regard of could there be Improvement. This question is poorly worded and would not provide a valid outcome of information. If you strongly disagree you are a person that is not looking to grow in opportunities to improve a community.

When you put Madeira City Schools it is implied that you are moving for the quality of Education. What's living here for 50 years people move here not just because of the quality education but because people are seeking a specific type of school. Madeira is known for quality intervention and student services. The high percent of people choose to come here because it is a smaller School. Typically when asked why they are choosing a smaller school and then they bring up the type of school they are looking for it is always down to four choices of Madeira, Wyoming, Indian Hill and Mariemont.

Obviously with having the opportunity to attend these schools and have children experience the education I would easily put a strong score for this question. However when you look at data there's always going to be data points of people that are extremely unhappy for various reasons. If you have 10 people that are extremely unhappy and are vocal in the social media world it is easily highlighted in today's culture although it is an extremely small number when you are looking at a district of 1800 students

Madeira hosts city events that are friendly and welcoming to me.

Again I'm not a fan of the wording of the question. The city of Madeira should use my tax dollars provide opportunities for community members to gather and experienced an opportunity to share common ground with different holidays or community events. I do not think it is the role of City Council, the mayor or any volunteer make sure that I am feeling welcomed. Typically people at these events for the last fifty years gather with neighbors and family which makes these events so much more enjoyable.

Madeira stores and restaurants are friendly and welcoming to me.

Again the question is not worded very well and could provide outcomes that could make the business district seem not as attractive. We have a quality business district in this community and hopefully more businesses will continue to come here. Unfortunately as long as the cost to employ and open businesses is so significantly High because of the community tax environment it was always difficult for a person to invest that type of money.

Madeira parks and recreational facilities/activities are friendly and welcoming to me.

Strongly Disagree 1 2 3 4 5 Strongly Agree

Please share your comments (Optional):

Again another poorly worded question. Parks and Recreation should provide opportunity for people to gather and share space. A space is usually designated for organizations that share a common Vision such as youth sports, different Community or political organizations and such.

Please share any additional comments or ideas (Optional):

Grateful you are taking the time to reach out to see how this community can improve its environment. It is always such a fine line for when local government reaches out to the community to allow others to experience the community in a positive way. I just feel so blessed that our city council has made the investment of our tax dollars to provide Community opportunities over holidays and many other unique opportunities for community members.
