

Early Learners Centre

Our Philosophy

We are a small, friendly, pre-school which aims to cater for the individual needs of every child in our care, to allow them to reach their full potential. We do this by providing the opportunity to learn through play in a safe, stimulating environment.

Learning through child-directed play

The importance of play for pre-school children cannot be underestimated. Early Learning Centre Pre-School is founded on the importance of child-directed play for under-5s. We look for opportunities to incorporate all of these types of play in our environment:

- Construction toys
- Music and movement
- Messy play
- Games and puzzles
- Early reading and writing
- Imaginative play
- Outside play activities
- Computer use

The highly qualified early year's practitioners at Early Learner Centre Pre-School observe the children taking the lead in play and help direct their play to enhance the learning experience when opportunities arise.

We are committed to providing children with a safe, happy and inspiring environment, where each individual will develop and reach their full potential. We genuinely work alongside parents/carers as partners to achieve the very best for every child. The Pre School is well resourced, have stimulating areas and well planned experiences. Staff are highly qualified and experienced, with a strong emphasis on keeping children safe. The Pre School provides an enabling environment that allows children to grow and develop with a strong self-esteem, independence and knowledge. Children leaving our Pre School to start school are confident children who are ready for their next stage of development.
