

BASIC COURSE INFORMATION

Course Prefix, Number, and Title:	BIOL 220-1 (02242) BIOL 220-3 (02940)	Human Anatomy & Physiology: Part 1 Human Anatomy & Physiology: Part 1
Credits:	Unit Hours/Credits: Classroom study hours (CS): Laboratory/Clinical hours (L/C):	4 units/credits 3 hours 3 hours
Meeting Days and Times:	Monday Lecture 1:00 PM to 1:50 PM Tuesday LAB (sec-1) 1:00 PM to 3:50 PM Tuesday LAB (sec-3) 10:00 AM to 12:50 PM Wednesday Lecture 1:00 PM to 1:50 PM Friday Lecture 1:00 PM to 1:50 PM	Memorial Hall Room 110 Swain Hall Room 306 Swain Hall Room 306 Memorial Hall Room 110 Memorial Hall Room 110
Semester/Year:	Fall Semester 2019	
Course Dates in Campus Connection:	16-week (fall semester) August 26, 2019 to December 20, 2019.	
Mode of Delivery:	face-to-face	
Location:	Lecture: Moore Hall Room 16. Lab: Swain Hall Room 306.	Minot State University Minot State University

INSTRUCTOR INFORMATION

Name(s) of Faculty Member(s):	Aaron L. Ament, M.Sc., M.D. (Instructor for Lecture) Lori S. Ihli, B.S., B.A, B.S. Ed. (Instructor for LAB)
Office Location & Office Hours:	Swain Hall Room 308. Minot State University. Office Hours: Mon., Wed. and Fri. from 11AM to 1PM, or by Appointment.
Contact Information:	Phone: (701) 240-3373 Email: aaron.ament@ndus.edu lori.ihli@ndus.edu Website: www.amentanatomy.com

ADDITIONAL COURSE INFORMATION

Course Catalog Description:	Structure and function of the human body dealing with the chemical, cellular, and tissue levels of organization and integumentary, skeletal, muscular, and nervous systems.
Placement Policies:	Each section of lab will have no more than 24 students. The section will not be overloaded. Any student on the waiting list will automatically be added to the enrolled status by campus connection once a student drops before the last day to add classes in rank order. If you do not get enrolled by the last day to add classes, then you will need to register to take the course in a future semester. No exceptions. Register for classes early to get the course you want in the semester you want. BIOL 220 and BIOL 221 are known to fill quickly.
Prerequisite/Co-requisite Courses:	No prerequisite course is required to enroll in BIOL 220.

General Education Category (or Categories): BIOL 220 does meet MSU's General Education Requirements in the FC2: Lab Science category, but not the CCS, PSR, and IP categories (CCS = Critical Capacities and Skills, PSR = Personal and Social Responsibility, IP = Interconnecting Perspectives). BIOL 220 is typically taken by those with majors requiring human anatomy courses or as an elective for those with an interest in the subject matter.

Required Course Materials:

Lecture Materials: *Anatomy & Physiology*, by OpenStax (the book is a FREE PDF at <https://openstax.org> You can also buy an inexpensive print copy in the bookstore or online).

Lab Materials: No lab manual to buy. I provide a lab handout for each lab when you arrive or have material written on the whiteboard. Your lecture book and the class website has all the photos and reference materials you will presented in the lab setting.

Student Learning Outcomes: N/A for BIOL 220

Course Objectives: As a result of taking BIOL 220 you will cover part 1 of 2 courses covering human anatomy and physiology. The individual learning outcomes of BIOL 220 are listed in the course catalog description and match the list of lecture titles presented. This is a hard course. There will be about 1000 anatomical and physiologic terms introduced throughout the semester. Many of these words or their derivations will be familiar to you from their common usage, but many are specific to the language of anatomy and this will be evident right from the very first lecture. It takes lots of time to memorize hundreds of new terms every few weeks, so be sure to work on it a little every day. Aside from the new anatomical terms, you will primarily be learning normal (non-diseased state) anatomy and physiology of the human body. When appropriate and where it highlights or emphasizes the reason a particular anatomical part or physiologic processes is taught, I will encourage discussion and go over some example diseases or injuries to show the close tie between form and function. Together, both BIOL 220 & 221 should prepare anyone interested in any of the medical or allied health professions as a career. After studying all materials and resources in the course, the student will be able to:

Lecture:

- Use anatomical terminology to identify and describe the locations of major organs in each organ system covered.
- Explain the interrelationships among molecular, cellular, tissue and organ functions in each system.
- Explain the physiological processes needed for the maintenance of homeostasis.
- Identify the causes and effects of homeostatic imbalances.
- Explain physiological processes of all body systems in detail and on an appropriate level (knowledge, comprehension, application and analysis).

Lab:

- Apply appropriate safety and ethical standards.
- Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, bones, and anatomical models.
- Work collaboratively and effectively in a group.
- Direct their own learning activities.
- Locate and Identify anatomical structures.

ASSIGNMENTS AND GRADING INFORMATION

Grading Policy and Scale:	Lecture Exam #1	Covers Chapters 1 to 5	100 points
	Lecture Exam #2	Covers Chapters 6 to 10	100 points
	Lecture Exam #3	Covers Chapters 11, 12, 13	100 points
	Lab Quizzes	10 points each (10 quizzes)	100 points
	Lab Mid-Term	Covers Labs 1 to 5	100 points
	Lab Final Practical	Covers Labs 6 to 10	100 points
	Cadaver Lab Participation (2, -25 points for each non-participation)		0 points
	TOTAL POINTS:		600 points

Letter Grade Breakdown:

— 85% to 100%	A	"Excellent"	510 — 600 points
— 75% to 84.9%	B	"Good"	450 — 509 points
— 65% to 74.9%	C	"Average"	390 — 449 points
— 55% to 64.9%	D	"Poor / Passing"	330 — 389 points
— 0% to 54.9%	F	"Fail"	0 — 329 points

There is no rounding of grades, and no curve applied to the class.

There are no extra-credit projects, and no retaking of quizzes or exams.

Tutoring services are usually available each semester, but not guaranteed.

If you are having academic trouble, ask me for help (earlier in the semester is better).

Assignments and Descriptions:

Lecture material is tested by multiple choice exams as noted above. There are no papers to write. Lab begins with a quiz on the previous lab's material followed by a presentation of the new lab material and time to dissect, observe the anatomy, view slides, and go over the relevant anatomy of the cadavers and models. Lab practical exams test on your knowledge of the lab material as noted above.

Tentative Course Outline:

Week	Day	Date		Lecture & Lab Schedule	Topic
1	Monday	August	26	NO LECTURE	Fall classes do not start till 4 PM on Monday. No lab the 1st week of semester. Introduction to Anatomy Introduction to Anatomy
	Tuesday	August	27	NO LAB	
	Wednesday	August	28	Chapter 1	
	Friday	August	30	Chapter 1	
2	Monday	September	2	NO LECTURE	Labor Day Anatomical Terminology & Cadaver Intro. Introduction to Anatomy Chemistry
	Tuesday	September	3	Lab 1	
	Wednesday	September	4	Chapter 1	
	Friday	September	6	Chapter 2	
3	Monday	September	9	Chapter 2	Chemistry Microscope & Somatic Cell Cycle. Dissection. Chemistry Cell Biology
	Tuesday	September	10	Lab 1 Quiz followed by Lab 2	
	Wednesday	September	11	Chapter 2	
	Friday	September	13	Chapter 3	
4	Monday	September	16	Chapter 3	Cell Biology Epithelia. Dissection. Cell Biology Histology
	Tuesday	September	17	Lab 2 Quiz followed by Lab 3	
	Wednesday	September	18	Chapter 3	
	Friday	September	20	Chapter 4	
5	Monday	September	23	NO Lecture	Assessment Day Tissues. Dissection. Histology Histology
	Tuesday	September	24	Lab 3 Quiz followed by Lab 4	
	Wednesday	September	25	Chapter 4	
	Friday	September	27	Chapter 4	
6	Monday	September	30	Chapter 5	Integumentary System Integumentary System. Dissection. Integumentary System Integumentary System
	Tuesday	October	1	Lab 4 Quiz followed by Lab 5	
	Wednesday	October	2	Chapter 5	
	Friday	October	4	Chapter 5	
7	Monday	October	7	Lecture EXAM 1	Covers Lectures on Chapters 1, 2, 3, 4, 5 Dissection Time. Bone Histology Bone Histology
	Tuesday	October	8	Lab 5 Quiz followed by Review	
	Wednesday	October	9	Chapter 6	
	Friday	October	11	Chapter 6	
8	Monday	October	14	Chapter 6	Bone Histology Covers Labs 1, 2, 3, 4, 5 Axial Skeleton Axial Skeleton
	Tuesday	October	15	LAB MID-TERM EXAM	
	Wednesday	October	16	Chapter 7	
	Friday	October	18	Chapter 7	
9	Monday	October	21	Chapter 7	Axial Skeleton Osseous & Appendicular Skeleton. Dissection. Appendicular Skeleton Appendicular Skeleton
	Tuesday	October	22	Lab 6	
	Wednesday	October	23	Chapter 8	
	Friday	October	25	Chapter 8	
10	Monday	October	28	Chapter 8	Appendicular Skeleton Axial Skeleton. Dissection. Joints Joints
	Tuesday	October	29	Lab 6 Quiz followed by Lab 7	
	Wednesday	October	30	Chapter 9	
	Friday	November	1	Chapter 9	
11	Monday	November	4	Chapter 9	Joints Muscles Part 1. Dissection Muscle Histology Muscle Histology
	Tuesday	November	5	Lab 7 Quiz followed by Lab 8	
	Wednesday	November	6	Chapter 10	
	Friday	November	8	Chapter 10	
12	Monday	November	11	NO Lecture	Veterans Day Muscles Part 2. Dissection Muscle Histology Covers Lectures on Chapters 6, 7, 8, 9, 10
	Tuesday	November	12	Lab 8 Quiz followed by Lab 9	
	Wednesday	November	13	Chapter 10	
	Friday	November	15	Lecture EXAM 2	
13	Monday	November	18	Chapter 11	The Muscles Nervous System. Dissection The Muscles The Muscles
	Tuesday	November	19	Lab 9 Quiz followed by Lab 10	
	Wednesday	November	20	Chapter 11	
	Friday	November	22	Chapter 11	
14	Monday	November	25	Chapter 12	Nervous System Histology Dissection Time Thanksgiving Break Thanksgiving Break
	Tuesday	November	26	Lab 10 Quiz followed by Review	
	Wednesday	November	27	NO Lecture	
	Friday	November	29	NO Lecture	
15	Monday	December	2	Chapter 12	Nervous System Histology Covers Labs 6, 7, 8, 9, 10. Nervous System Histology Anatomy of the CNS & PNS: Part 1
	Tuesday	December	3	LAB FINAL EXAM	
	Wednesday	December	4	Chapter 12	
	Friday	December	6	Chapter 13	
16	Monday	December	9	Chapter 13	Anatomy of the CNS & PNS: Part 1 Anatomy of the CNS & PNS: Part 2 Anatomy of the CNS & PNS: Part 2
	Tuesday	December	10	NO LAB	
	Wednesday	December	11	Chapter 13	
	Friday	December	13	Chapter 13	
17	Monday	December	16	Lecture Exam 3 (FINAL EXAM)	Covers Lectures on Chapters 11, 12, 13 12 PM to 1:50 PM.

You must participate in 2 cadaver dissections during the semester. Participation is required and will be explained in lab. 25 points will be deducted from your final point total for each dissection missed (max of 50 points can be deducted).

Tentative Dues Dates of Major Assignments: See the Tentative course outline for the dates and topics of each quiz, exam and lab practical.

POLICIES

Late and Missed Work Policy: If you have a schedule conflict (MSU sanctioned sports event, planned surgery, pregnancy, doctor's appointments, etc....), tell me (*if possible*) BEFORE the exam or ASAP by email so we can plan another testing time. If you are sick, go see a doctor first and talk to me later about make up work. Be prepared that makeup exams will likely not be the same format as listed below (i.e. fill in the blank, essay, or other kind of test of my choice). Ideally, all makeup lecture and lab exams will be done within a week of the one on the schedule.

Attendance Policy: I follow the Minot State University Attendance Policy that can be found at <http://www.minotstateu.edu/records/pages/policy-class-attendance.shtml> You are expected to attend all lectures and lab. As a courtesy, please email me if you are going to miss lecture or lab.

University Sanctioned Events Policy: Minot State University has a commitment to students who represent the University in official capacities. University-sanctioned activities include events that are required or encouraged by a class, program, club, or athletic team. When a student has a scheduled absence due to a university-sanctioned activity, it is the student's responsibility to communicate with the faculty member prior to his or her absence. If you absence occurs during a lab or when a lecture exam is being given, I will work with you to find a time to makeup the quiz or exam you missed. I try to get all missed work completed within 7 days. If the student fails to communicate with me (by email, phone, in-person, etc...) within a week of the missed work, a zero will be scored.

Academic Honesty Policy with Penalty for Violating the Policy: I follow the Minot State University Academic Honesty Policy that can be found at: <http://catalog.minotstateu.edu/graduate/policies-regulations/grad-academic-honesty/> If you are caught cheating on any quiz or exam, a zero will be recorded.

Disability Statement: In coordination with the Access Services, reasonable accommodations will be provided for qualified students with disabilities (LD, Orthopedic, Hearing, Visual, Speech, Psychological, ADD/ADHD, Health Related, TBI, PTSD and Other). Please meet with the instructor during the first week of class to make arrangements. Accommodations and alternative format print materials (large print, audio, disk or Braille) are available through the Access Services, *in person*, by phone 701-858-3371 or by e-mail at evelyn.klimpel@minotstateu.edu.

Non-discrimination Statement: Minot State University subscribes to the principles and laws of the state of North Dakota and the federal government pertaining to civil rights and equal opportunity, including Title IX of the 1972 Education Amendments. Minot State University policy prohibits discrimination on the basis of race, gender, religion, age, color, creed, national or ethnic origin, marital status, sexual orientation, gender identity, or disability in the recruitment and admission of students and the employment of faculty, staff, and students, and in the operation of all college programs, activities, and services. Evidence of practices which are inconsistent with this policy should be reported using the Student Complaint and Anti-Discrimination Form located here: <https://form.jotform.com/72996849416981>. For the complete non-discrimination statement, visit [here](#).

Title IX Statement:

MSU faculty members are “mandatory reporters,” which means that once we are apprised of violence or harassment based on sex and gender, we are required to report the incident to the Title IX office on campus, regardless of whether the student wants this information reported or not. It may very well be that you would like the information reported, but you do not know whom to approach about this information, in which case our mandatory reporting requirements will be desirable to you. However, if you just wanted to talk about an incident but do not want it reported, neither you nor I have any choice in this matter, and once divulged, I must report it. This Office for Civil Rights.

Title IX makes it clear that violence and harassment based on sex and gender are Civil Rights offenses subject to accountability and support. If you or someone you know has been harassed on the basis of sex and gender or assaulted, you can find the appropriate resources on/off Minot State University’s campus.

IMPORTANT DATES

Assessment Day:

Monday September 23 NO Lecture held on Assessment Day

Final Exam Date and Time:

See tentative calendar above for the full details of what is on each exam:

Thursday December 3 LAB FINAL EXAM at your regular lab time.

Monday December 16 Lecture Exam 3 (FINAL EXAM) 12 PM to 1:50 PM

Human Cadaver Lab Rules:

There are some very specific rules regarding your experience in the the cadaver lab.

- a. Due to grouped activities in lab, and just 2 cadavers that need to last a year, it is absolutely necessary that you attend the lab section you are registered for. Remember, that any missed quizzes or exams can not be made up unless you follow the rules mentioned above. **It is best not to miss anything.** Quizzes are based on the previous lab's material. I will let you know what that material is when you come to lab. Do not expect to get a chance to take the quiz later in the lab if you show up more than a few minutes late.
- b. You will do dissections of both animal organs and full human cadavers. While the animal dissections always go along with the new material presented each week, due to the sequence of how a cadaver is dissected some of the cadaver dissection material may not correlate till later in the semester. I will let you know if we have identified something from one of the cadavers from a previous dissection in the first half of the lab. This "mis-alignment" of what you are dissecting and what you are studying is really only present for the first half of the lab, towards the end... all of the lab stuff will be in sync.
- c. **YOU WILL BE GRADED AND RESPONSIBLE FOR PARTICIPATING IN 2 DISSECTIONS. You must participate to pass, but there are "participation options" for those who do not want to cut or even touch the cadavers. At a minimum, you must be able to look at the cadavers, or else you might need to drop the course. The dissection participation options will be explained in lab, and there will be a sign up sheet posted in the lab for each lab section. The location to be dissected is decided by Dr. Ament from week to week based on the progress already made.**
- d. **Photography, or video of the human cadavers of any kind, as well as mishandling, or disrespecting the human tissue are grounds for immediate failure of the course. In addition, you will NOT be eligible to take this course again in the future.**
- e. Usually a handout with the assigned information for that week will also be provided, or I will write materials to be learned on the whiteboard in lab. These handouts are just to help you with note taking, they are NOT for turning in as a grade. Copies (if you lose it) will be posted to the class website.
- f. **NO open shoes, NO flip-flops, NO sandals are allowed in the cadaver lab. If I can see the skin on your toes, you can NOT go in the cadaver lab area of the room.**
- g. You must wear a lab coat and gloves to work with the cadavers. If you were only participating with documenting and navigating the dissection versus doing the actual dissecting, you can return your lab coat to the "clean" area. Dissecting students will put their lab coats into the laundry basket in the cadaver lab.
- h. The window blinds to Swain 306 will be CLOSED when the cadaver lab blinds are open to prevent people in the hall from seeing the cadavers.
- i. Put all loose fat, connective tissue and removed skin as instructed into the correct bins. NEVER remove any cadaver tissue from the cadaver lab. NEVER mix or move one cadaver's tissue with the other one. All tissues from each cadaver are kept separate.
- j. Wash the tools in the sink with soap and water when you are done, and put them in the drying tray.
- k. ALWAYS document your group's dissection in the correct log with each lab. This is part of your grade.
- l. No food or beverages in the cadaver lab.
- m. **NO person is to be admitted into the cadaver lab without staff approval. If the visit serves no academic purpose, the request to view the cadavers will be denied.**
