2. All new registrants must be evaluated for their respective league and be rated.
3. New registrants aged 5 through 8 will not be evaluated and will not be rated.
4. Any player that played in a travel program the previous year and is now participating in the Intramural program will be evaluated or placed in the first round of their respective age group draft.

B. Tryouts (New Player Evaluations)

1. All new players will be rated by their respective League Coordinator and two coaches who have signed up to coach in that league at evaluations based on the rating system.
2. New Player Evaluations will be scheduled by the Basketball Advisory Board in October.

III. Rating Systems

A. Points – Range from a low of 1 to a high of 10.

B. Rating Dimensions

1. Ratings information will be used for permanent information and, in cases of

- emergency or injury, it will serve as a second source (along with registration forms filled out at registration) of information. Please be sure player's birth date is accurate. If the player lives with neither father nor mother, indicate guardian.
2. There are five categories we are rating the players in, starting with dribbling and working down to defense. Players are to be rated versus everyone in their league. In addition, players' points per game average should be listed. Under the correct year, evaluate each skill with a 1 through 10.
    - a. (1-2) Very weak, not developed at this time.
    - b. (3-4) Weak, but beginning to improve.
    - c. (5-6) Average compared to other players his/her age.
    - d. (7-8) Skill in this area is well developed.
    - e. (9-10) Clearly outstanding; one of the best in the league at this skill.
    - f. Game point average provided by coach.
  3. Total: The highest a player could score is 50. DO NOT, however, total the score. An age factor will be applied to determine overall total. This will be done by the League Coordinators.
  4. No coach will be permitted to participate in their league's playoffs if the coach does not hand in his/her ratings before February 15<sup>th</sup> of that same year.
  5. The League Coordinator will collect worksheets no later than the end of February. At this time, League Coordinator will multiply child's total rating by the following age factors:

<u>League Age (Boys)</u>	<u>Multiple</u>	<u>League Age (Girls)</u>	<u>Multiple</u>
6	10	6	10
7	10	7	10
8	10	8	10
9	10	9	10
10	10	10	10
11	10	11	10
12	10	12	12
13	13	13	15
14	16	14	14
15	15	15	17
16	18	16	18
17	19	17	19

#### IV. Draft Procedure

##### A. Draft List

1. League Coordinator will create a master list from coaches and tryout ratings showing the rating, scoring average, age, height, telephone number and registration ID of each player. Draft list is to be in descending order by rating.
2. League Coordinator must review draft list with a panel of knowledgeable coaches and adjust accordingly. Every effort should be made to have an accurate draft list.

##### B. Team Size

1. League Coordinator will determine the number of teams within his league based on the total number of participants.
2. Optimum team size is from 8 to 10 players.
3. If not enough people step-up to volunteer to coach, then it might be determined the league needs to limit its' number of players. We will do our best to find

volunteers but your child could be turned away after registration, but before the season begins, due to a lack of volunteers. This will be based on date and time stamp of registration.

C. Drafting System

1. Draft will be scheduled and chaired by the League Coordinator.
2. Another League Coordinator or Commissioner will be responsible for overseeing the draft and ensuring proper draft procedures are followed.
3. Draft lists will be provided to the coaches at least 48 hours prior to the draft.
4. Coaches will select a random number for their draft number unless the child of whom the coach is the guardian is rated in the first round. Coaches are assigned their draft numbers that correspond to their child's rated position.
5. In the final round, if there are fewer players left than the number of teams in the league, those players must be chosen by the coaches with the lowest draft number, in reverse order. For example, in a 10 team league, if there are 5 players left when the last round begins, Team 5 will get the first pick of those players; Team 4 gets the second pick, etc.
6. Coaches' sons/daughters/brothers/sisters are assigned to them in the round they are ranked if so desired.
7. Brothers and/or sisters will be placed on the same team. If a coach selects one brother and/or sister in a round, he will get the other brother and/or sister in the round in which they are ranked. If both are ranked in the same round, he will get the other in the next round. If two (2) brothers/sisters are rated in the last round, the team with the number one draft choice will be assigned these two players in the last two rounds, unless another coach indicates he will select one brother/sister in the next to the last round.
8. Once a player is selected in the draft and recorded on the official draft sheet that player cannot be traded or moved to another team.
9. There will be no freezing of players in the Intramural Leagues.
10. No special request by parents for placement on a specific team will be honored.
11. Requests by parents to exclude a particular coach must be provided in writing to the Parks and Recreation Division by October 15th and approved by the Advisory Board prior to the draft.
