

OHV Working Group
Conference Call Notes
9/17/2019

On the call: Shelley Grail, Forest Service; Manette Anderson, Crystal; Marlene Crosby, Gunnison County; and Terry Langley, meeting notes.

While we waited for others to join the call, we talked about the GoPro video showing a gentleman going over into the Devil's Punchbowl on his motorcycle & the additional video showing the recovery of the motorcycle.

The meeting with the Gunnison County Commissioners will be on Oct 10 at 6 p.m. The first part of the meeting will be with the Town Board without public input. An opportunity for public input will follow. Ron needs to send out a calendar invite. The group would like to meet at 3 p.m. Marlene would like to have an agenda for that meeting. Shelley is hoping to have Rob and Curtis (the new acting Forest Service Director) at the evening meeting. She is not sure if they will be able to come to the earlier meeting.

Marlene asked if anyone knew that Chris Cox was working with the Historical Preservation Commission for a grant application to do a traffic study in Crystal. She was surprised to learn of it. No one else on the call knew anything about it. She will send the information to the group.

Call ended at 3:20
