Exploring the Trenchless Rehabilitation Toolbox Don Wible, Nor-Cal Pipeline Services

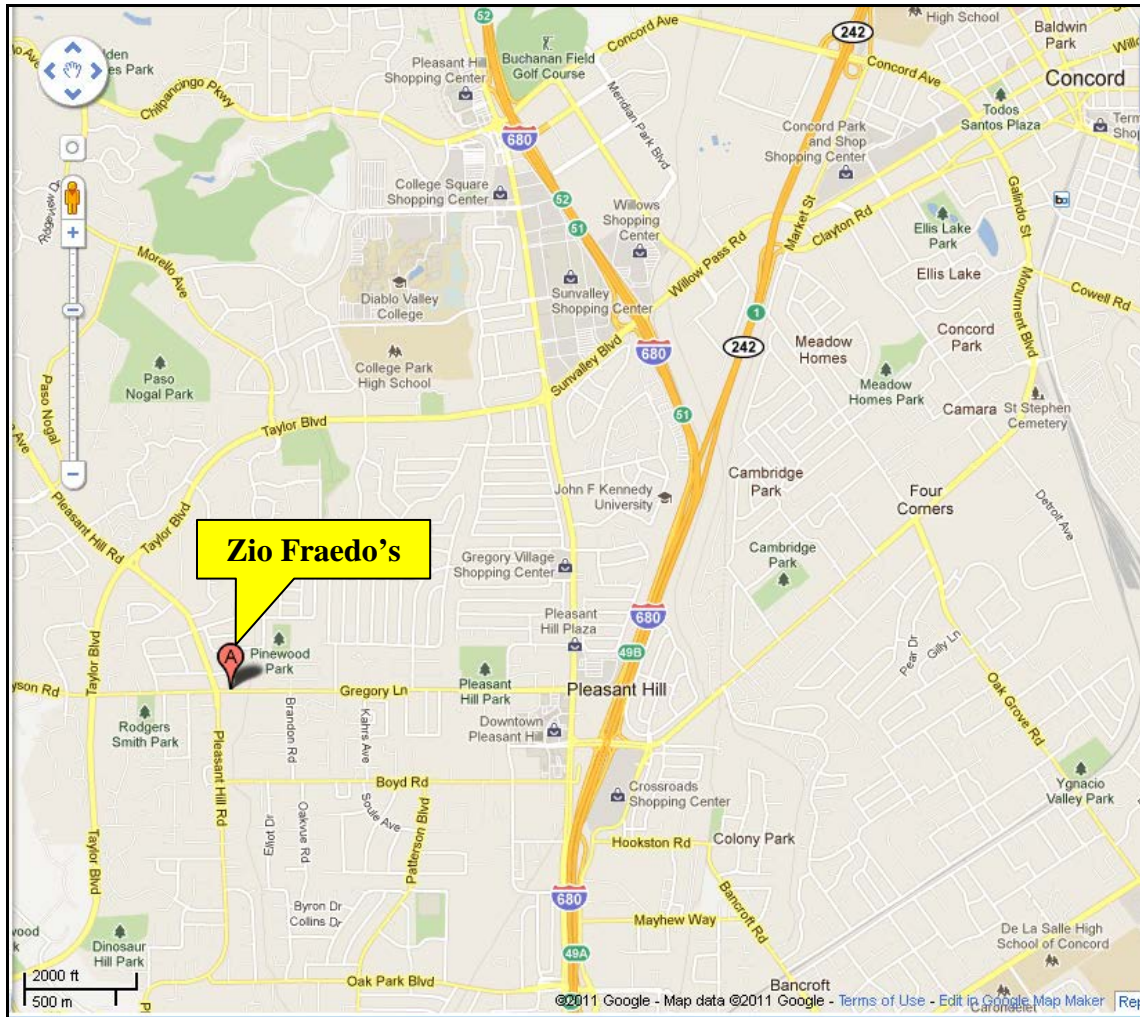

Our February presentation will cover various aspects of trenchless piping rehabilitation. This technology avoids costly and disruptive trenching operations to repair or rehabilitate buried piping. It is particularly valuable in crowded urban corridors where excavations would severely disrupt traffic and pedestrian flows. This tutorial will present an overview of trenchless services including pipeline cleaning technology, CCTV, bucketing operations, hydro and vacuum excavation methods, and profilers, sonar, and laser techniques for pipe condition assessments. The talk will also address pipeline rehabilitation products such as cured-in-place pipe (CIPP) for mains and laterals, CIPP spot repairs, chemical grouting of lateral connections and concrete structures, lateral-to-main connection seals, pipe bursting, and sliplining.

Don Wible received his B.S. in Aerospace Engineering from the University of Texas at Arlington. Instead of exploring the outer reaches of space, he chose to focus on buried infrastructure instead. Don currently works as a business development manager for Nor-Cal Pipeline Services providing trenchless solutions to evaluate and rehabilitate sanitary and storm sewer pipelines and wastewater structures. One of his key functions is to research and evaluate new technologies for possible inclusion in the company's technology toolbox. Prior to Nor-Cal Pipeline Services he worked for Pacific Liners and Insituform, and for pipe manufacturing companies Ameron, Interpace, and GHA. Don has been active in the trenchless technology field for 19 years. He is an active member of the California Water Environmental Association, the North American Society for Trenchless Technology, the National Association of Sewer Service Companies, and the American Society of Civil Engineers.

MANY THANKS TO OUR SEP 2016 – JUNE 2017 SPONSORS!!

Abriox	Denso	PG&E
Accurate Corrosion Control, Inc	E.A. Wilcox Company	PPG Protective & Marines Coatings
ADS Pipe	Elecsys Corporation	Protection Engineering
Advance Products and Systems	Exaro	Qualspec
Alisto Engineering Group	F.D Thomas Inc	Redwood Painting Co
AMCORR Products and Services	Farwest Corrosion Control Company	SAK Construction
American Construction & Supply	Forensic Analytical Consulting Services	Sherwin Williams
B&W Distributors Inc	Global Eco Technologies	Tinker & Razor
Bay Area Coating Consultant	HDR	Tnemec
Billy Campbell Technical Services	Hibot USA	Trenton
Bingham & Taylor	JDH Corrosion Consultants Inc	Trident Environmental & Engineering
Cal State Constructors	Jeffco Painting and Coating	Tripac
California Aqua Store	Jerry Thompson & Sons, Inc	Utilithane
Carboline	Jifco, Inc.	V&A
Carollo	Kelly-Moore Paint Co.Inc.	Valspar
Certified Coatings Company	Lamons	Vantage Point Consulting
Corrosion Probe Inc	MEARS	Warren Environmental
Corrpro	Mesa	West Coast Consulting
CSI Services	NorthTown Company	
Dampney Company Inc	Northwest Pipe Company	

San Francisco Bay Area Section Meeting Location and Directions

Zio Fraedo's Restaurant, 611 Gregory Lane, Pleasant Hill, CA. 925-933-9091

Directions

- Take I-680 north to Contra Costa Blvd. Exit 49A in Pleasant Hill and drive north. Pass Monument Blvd. then turn left onto Gregory Lane. Pass Brandon Rd. on left in 1 mile. Look for Zio Fraedo's on the right just before Pleasant Hill Rd.
- Take I-680 south, exit at Sun Valley/Willow Pass Rd. Drive west and turn left on Contra Costa Blvd., then right on Gregory Lane. After 1 mile drive past Brandon Rd. on the left; Zio Fraedo's will be on the right before Pleasant Hill Rd. intersection.
