

Yesterday was the first big snow of the year, come to think about it, it was the FIRST snow of the year. As I shoveled snow off the deck one thing came to mind, Nobody hates winter like a biker. No, I'm not going to move to the fabled land of 80 degrees and sunshine, my roots are too deep and it would be too hard to pull them., but a man can dream.

Anyway, The BOD has come up with some sample letters to be used in drafting a letter to your legislator concerning the insurance legislation. If you e-mail me at [abateofmich.region9@gmail.com](mailto:abateofmich.region9@gmail.com) I will send them to you. Also the BOD is working on the distracted driving legislation, so if you're in the letter writing mood you could contact your representative on that issue. I am told that a letter is the most effective way to get your legislators attention.

The MRF will be sending a region reup for the region sustaining member, I will maintain the membership as long as the region has the funds.

Did you know that Europe is banning the sale of all combustion motors by 2030., could it happen here. This would explain why motorcycle and auto manufacturers are getting deep into electric vehicles.

Keep warm and safe

Nick

Region 9 R.C.
