Brent Van Loggerenberg
President of Nguni Parking Solutions
Remote Command Center USA
1445 Ross Avenue, Suite B101
Dallas, Texas 75202

Dear Mr. Van Loggerenberg:

It gives me great pleasure to know that Nguni Parking Solutions has unveiled a state-of-the-art remote monitoring and ticket-less parking revenue control system in the Fountain Place building in downtown Dallas. It is my understanding that this parking system is the first of its kind here in the United States. As a ranking member of the House Committee on Science, Space, and Technology and the House Committee on Transportation and Infrastructure, I applaud your ingenuity and vision to create such a vital product. Through your new parking system, companies will be able to reduce their operating costs and their environmental footprint by offering this ticketless option.

The Remote Command Center parking facility houses some of the latest technology available in all of North Texas. Thank you for adding this much-needed service to our community.

It is my hope that Nguni Parking Solutions will continue to follow its vision and continue growing in Dallas and throughout this nation.

Sincerely,

Eddie Bernice Johnson
Member of Congress
