

Capability Statement

Overview

Coastline Consulting Services, Inc. (CCS), is a certified **Minority-Owned Small Business (SDB), 8(A) Firm by the Small Business Administration (SBA)**, comprised of a unique but complementary staff of Civil Engineers and QA/QC Inspectors. Our **Staff** provides qualified professionals in the following areas: Civil Engineering, Project Management, Construction Engineering Inspections, and Construction Management. Our team focuses on quality service and detail to bring projects successfully online and within budget every time.

Mission

CCS has the experience to provide local, state and federal agencies with experienced, educated and committed professionals to meet future challenges of federal government, military, and civilian projects within the Southeastern United States.

Core Competencies

- Site Development
- Roadway Design
- Transportation Design
- Water & Sewer Design
- Surveying
- General Contracting
- Construction Engineering Inspections (CEI)
- Marine Engineering Inspections
- Construction Management
- Site Preparation
- Project Management

As a Prime or sub-contractor, CCS can rapidly “staff up” based on our existing relationships with a host of proven sub-contractors. We also partner regularly with larger Engineering, Architectural and Construction firms.
