

How to Prepare for a Reading with Margie Kay

Margie Kay is one of the best remote viewers in the world, and she is very fast and accurate. The information presents itself even before a person finishes asking a question in many cases. She can look at the past, present, and future.

1. **Connection:** The best connection method is to use a PC or MAC that is directly connected to a router with an ethernet cord. If you are not able to do this and need to use a laptop, phone, or other device using WiFi please get as close to a router as possible. If we lose connection, try connecting again. If that does not work, call 816-365-9492 and we'll finish by phone.
2. **Location:** Please be in as quiet a place as possible with no pets, children, or other adults around so that Margie can stay focused on you.
3. **Recording:** Margie goes into a light trance state while doing remote viewing and will not remember anything about your reading after she is finished. Please record the session with your phone or other device or take notes. Margie gets information very quickly so there will be a lot for you to work with.
4. **How this works:** Margie will shift her level of consciousness, then scan your energy field, chakras, and inside the physical body. Any information she receives about your physical body is for entertainment purposes only and you should always rely on professional health care practitioners for advice. For this part of the reading it is best to stay quiet. After she completes this part of the reading you may ask questions about any subject.
5. **Ethics:** Margie does not read other adults for you for ethical reasons, but will if there is a dire situation such as a severe injury where the other person cannot communicate. In that case, they must be related to you. She will read your own children or unborn child if you wish since you are the parent. Also be assured that Margie never shares information about you with anyone else.
6. **Viewing:** Margie will not look at top secret locations, but she will look at events involving you and extraterrestrials. She can also see your spirit guides and loved ones who have crossed over. Most people have several guides with them at all times.
7. **Repeat readings:** Margie will do two to four readings per person per year due to her heavy work load, and she does not want people to be too dependent on her.
