* A General Fund Balance for the new fiscal year will start out at \$ 1000,000.00

*The board itemized each line item with a few changes. Most of them were minimal but had to make changes to the Fire Department contract (which has not had an increase since there were contracted out by our Township) we are at the contracted amount of \$ 40,560.00 quarterly. At this time Road Commission amounts are at \$ 320,000.00 with changes if be needed. Many road projects will begin this spring and the residents will see the benefit of the recent passing of the road mill. All board members were quite satisfied that our budget will be well kept within our range of spending and that our Township is in a real good financial place and are looking forward to the new fiscal (2021-2022) year.
