RE:
Delta Engineering
Caprice Baumert, and Bo Slendak

To whom it may concern:

I am a registered Architect in Savannah, GA, and have been working with Caprice and Bo for a few years, now. I have brought them on as mechanical and plumbing design consultants on numerous projects of different occupancy types, and varying levels of complexity.

We recently completed a 10,000 gross square foot Sanctuary in Garden City, GA. The client and I couldn't be happier with the level of service and design skills provided by Delta Engineering.

I have enjoyed working with them. Their professionalism, technical knowledge, and expediency, have all been outstanding. I am usually waiting on most mechanical and plumbing engineers to finish their part, but not, Caprice and Bo. They have at times finished far in advance of myself and with the utmost accuracy.

I believe, Delta Engineering, to be a very qualified, and competent design firm. I am always looking for the next project to collaborate with Caprice and Bo, and would not hesitate to recommend them for your needs.

Thank you for your time, and if you'd like to discuss anything further, please feel free to contact me. You can reach me at my email address, or by cell phone, (912-667-8830).

Respectfully Yours,

Demetrius "Meech" F. Huddleston
Registered Architect, Georgia
