

# Crescent Moon TRUCKING, LLC

BUILDING OUR COMMUNITY ONE LOAD AT A TIME

*Crescent Moon Trucking, LLC provides an array of service offerings and as the name suggests, delivery of our products is obviously our specialty! We have several options at our disposal and depending on your particular needs we can find a transportation or delivery option that is right for you.*

***Please give us a call for a recommendation and quote for our services.***

*Delivery Service Options Include:*

- *Tri-Axle Dump Truck Services*
  - *Standard Payload of 16 CY or 18 Ton Capacity*
  - *Ideal for medium size jobs where bulk materials are necessary or convenient*
  - *Cost effective means for delivering multiple loads of materials daily*
  - *Ease of access to tight areas such as small jobsites or yards*
  - *Can haul almost any type of materials, primarily used for sand and gravel*
- *Single Axle Dump Truck*
  - *Standard Payload of 9 CY or 7 Ton Capacity*
  - *Smaller and more versatile*
  - *Ideal for medium to smaller sized jobs*
  - *Easily accesses very tight areas, backyards, and small job sites*
  - *Hauls most materials, commonly used for sand, gravel, and mulch materials*
  - *Lighter than the tri-axle and a good alternative for soft areas, driveway damage concerns, and minimizes "rutting" in yards*
- *5 Ton Dump Trailer*
  - *Standard Payload is 6.5 CY or 5 tons*
  - *Very cost effective for small jobs, particularly residential work*
  - *Light, and leaves very little "rutting"*
  - *Often used for transportation and delivery of mulch, small sand and gravel orders*
- *Other Trucking and delivery Options*
  - *Cab and Dump Trailer (larger capacity, 20 CY or 22 tons) typically used for commercial jobs and flat areas where larger quantities are needed*
  - *RGN (Removable Gooseneck Trailer) and Flatbed Trailers, commonly used for transportation of small and large heavy equipment to include tractors, dozers, skid steer loaders, etc.*
