

YEAR: Mid 1960's

MAKE: Black Hawk (Cravotta Brothers)

MODEL: Galaxie Mars

HAND: Right

DRAW WEIGHT: 48#

AMO LENGTH: 52"

PRICE: \$179.00

SHIPPING & HANDLING: \$19.00

TOTAL COST: \$198.00

DESCRIPTION: This Blackhawk Galaxie Mars is a RARE find. Still has the original Blackhawk arrow shelf side plate. Great looking vintage recurve. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. 3 filled sight screw holes on the back of the bow (see pic on p. 6). No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. The Blackhawk decal is a reproduction. Of note: As a shorter hunting bow (52"), this bow tends to begin stacking at around 27". Accordingly, it is not recommended for anyone with a longer draw length.
