

# PARIS A LA PLEIADES

Paris is a tribute to Mars, the god of War. It is attributed to Giza and the area of Cairo which means Mars. Like all other major Luciferian capitals, its homage is to the gods of Egypt, of Babylon, of Nimrod, the 1st Mason and world ruler. Moreover the pattern of the Paris proper city suggests the ancient pre-Flood ley-line sacred geometry of Cydonia, Mars. This assertion highlights the 3 main structures that encompasses the famous Face of Mars, the D & M Pentagonal pyramid and the Pyramid City. This motif has been discovered to repeat across the globe in the primary ancient sacred temple complexes such as Teotihuacan, Tikal, Angkor Wat. In the modern era the major Illuminati Luciferian capitals appear to also exercise this sacred geometry; most notably, London, Paris, Roma, Washington DC, Jerusalem, etc. The following chart illustrations propose to show this approximations and correlations in light of the Paris Friday the 13, 2016 Islamic terrorist bombings.

**MARS PENTAGRAM FORTRESSES**  
Each Luciferian world capital has its signature 'Pentagram' that most often is masked as a fortress. This pattern is seen as in the Pentagon of Washington DC, a tribute to the 'god of War' as in the Department of War, Castel Sant'Angelo near the Vatican, London Tower, etc.

## Eye of Lucifer

A ritualistic slaughter is a sacrifice to Lucifer and his Fallen Angels and spirit demons coveting the need for blood-letting. The various ley-lines in tandem with certain Satanic high holy days eventuates religious rite.

Sacrificed to Allah as they sang 'Kiss the Devil'.

This alleged Cydonia pattern is also almost an exact copy in degree heading and map length as is the layout of London. The 2nd chart to this PDF will demonstrate this amazing correlation.
