

The WeatherTechMudFlap

- Laser Measured for a Perfect Fit set literally "mounts-in-minutes" (in most applications) without the need for wheel/tire removal, and most importantly - without the need for drilling into the vehicle's fragile painted metal surface! Contoured specifically for each application and molded from a proprietary thermoplastic resin, the Weather-Tech MudFlap will offer undeniable vehicle protection.

QuickTurn Fastening System

Featuring the patented QuickTurn hardened stainless steel fastening system. WeatherTech MudFlaps provide protection for your vehicle's most vulnerable rust area; protecting the fender and rocker panel from stone chips, slush, dirt and debris.
