Please intital below confirming and acknowledging each statement:

- \_\_\_\_\_ A copy of the Deed into Owner is attached verifying proof of ownership.
- \_\_\_\_\_ Applicant/Owner acknowledge that Applicant/Owner is responsible for digging the first set of test pit holes for the perc test.
- \_\_\_\_\_ Applicant/Owner acknowledge and agree that six (6) perc test holes will be dug with each measuring twenty (20") inches deep x four (4") inches wide.
- \_\_\_\_\_ Appliant/Owner authorizes Sewage Enforcement Officer to dig a second set of holes, if needed, and understand that Applicant/Owner will be responsible for the cost thereof.
- \_\_\_\_\_ Applicant/Owner acknowledge and agree that Applicant/Owner will be responsible for all fees charged in connection with the Application, Testing, Inspections, Design Review, etc. as outlined on the Eldred Township Septic Fee Schedule attached hereto in addition to any charges of the Eldred Township Solicitor and a ten 10%) percent Administration Fee. Applicant/Owner agrees to pay all fees and charges in excess of any fees or deposits made by me to the Township.

## ELDRED TOWNSHIP 2025 SEPTIC FEE AND DEPOSIT SCHEDULE

Total fees due shall be equal to all charges of the Sewage Enforcement Officer and any other charges of professionals the Township incurs in connection with the work for which the Septic Permit or other approval is requested, including Solicitor's fees, as well as a Ten (10%) Percent Administration Fee (of all professional fees). Applicant for Site Suitability Application shall also pay an additional initial administrative fee of \$200.00 as detailed below.

The Applicant shall deposit with Eldred Township the following amount(s) when making an Application for an Onlot Sewage Disposal System permit, or other requested approval or when requesting a Field Consultation as outlined below.

Deposit to be Collected	Description of Work	Estimated Amount
	Initial Site Suitability Application Fee - Non-Refundable	\$ 200.00
	To be paid with Completed Application	
	Soil Probe Analysis - Initial site investigation and soil probe evaluation (up to two (2) probes)	\$ 250.00
	Additional soil probes evaluated during same visit (per probe)	\$ 35.00
	Percolation Test	
	Prepared and conducted by Township SEO	\$ 520.00
	Performed by Others; Witnessed by Township SEO	\$ 440.00
	Two tests conducted at the same time and on the same parcel	\$ 650.00
	Design Review - Review Completed Application and System Design, Inspect system stakeout and issuance of Septic Permit	
	Conventional System	\$ 220.00
	Alternate System	\$ 350.00
	Community Onlot System - \$220.00 per lot/EDU	
	Additional Design Reviews - per Revision	\$ 75.00
	Inspections	
	Inground absorption areas - 3 Inspections	\$ 650.00
	Elevated absorption areas - 4 Inspections	\$ 870.00
	Drip Irrigation System - 2 Inspections	\$ 435.00
	Call Back Fee - For each site visit and/or inspection or re-inspection required in addition to the above or not described elsewhere	\$ 220.00
