

I have been asked about handlebar height, the legal height is 30 inches. ABATE backed SB-568 that raised handlebar height from 15 inches.

What ABATE is working on

Insurance/ MCCA reform, a bill to mandate penalties if an accident causes a fatality, Lane filtering for very low speed traffic jams, set up a Motorcycle advisory board/ commission, and make only hands free phones legal while driving. More information on these and other issues can be read at ABATE website.

I attended Region 18's poker run this last weekend, a great fun time with some old and new friends. I hope to be able to spend the night next year; it looked like a fun agenda.

For you early risers and all night cruisers, A restaurant in Vermontville is doing a Bike Morning, a twist on Bike Night, with specials on the breakfast menu. I had a breakfast burrito and coffee with friends. You can also take your food over to the park where there is a farm market going on.

That's all for now, keep the rubber on the road.

Nick
