US Energy Services, Inc.

OUR US Factories

Our **US** factories boasts the latest in computerized technology, from robots and 3D printers to large programmable brakes and presses to provide exceptional quality and fast turnaround for all your exacting specification. Our factory flexibility allows you to work with us on your exact specification for the application. Our in house powder coat finishing provides cost effective options for every product.

OUR LED Products

The right LED fixture today requires the right wattage and lumen package, the right reflectors and diffusers to maximize efficiency, the right size and finish for the perfect look for your application, and the right warranty to maximize maintenance. We can achieve all of this for you with fast turnaround, value pricing, and continuing customer care.

OUR Yes We Can Culture

Our founder's philosophy is to say "yes" and then work hard to make it happen! This is a stark contrast from the slow moving, bureaucratic approach of our larger competitors. We ensure that every lighting challenge is met with determination and a smile; and we are committed to being your **Best Lighting Solution!**

RECESSED LINEAR

Sky Box

Our SBX is an architectural and aesthetically pleasing addition to any environment. Not only do we offer our SBX as a whole fixture; we also are able to provide a recessed shroud to transform existing flat panels in your space! This specification grade luminaire is available in 1x4, 2x2, and 2x4 sizes with 3500, 4000, or 5000K Color Temperatures. Our 2x4 boasts an offering of two different Lumen packages. The shroud can be customized to add a pop of color.

Transform your flat panel into a specification grade luminaire with our Sky Box accessory. Custom interior color makes a statement and reinforces your brand.

SKY BOX (Innovative recessed shroud and flat panels combined)

ITEM NO.	DESCRIPTION	SPECIAL PRICE

You can draw it, we can make it!

Ordering Patterns

US Energy Services can create patterns with 23, 44, 45 and 66 Series. Patterns are available for recessed and pendant mounting versions with lit corners or unlit corners. See below for some of the possibilities and consult factories for exact ordering numbers and pricing.

Continuous Run Ordering for USE23, USE44, USE45, USE66, USELPLIN and USESLP Series

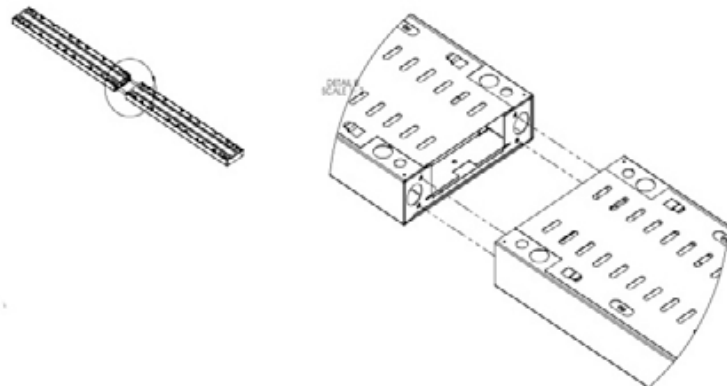

1. Determine the run length and whether the run will be dimmed or not.
2. Use the above 2, 4 or 8 ft. runs from the Series Specified to add up to total run length. Use the largest individual fixtures to achieve run lengths (i.e. for 20 ft. run, use 2x8 ft. individuals and 1x4 ft. individual from above with the correct ordering info for your series). Watts and lumens for each section should be proportional for the size (i.e. If 48W with 4 ft then 8 ft should be 96W). Consult for other lengths.
3. Designate each length required in the run whether it will be the beginning of the run **"B"**, **joiner in the run "J"** or the end **"E"** of the run. **Add the letter designation to the end of the part number.**
4. For Plug and Play electrical wiring between individual fixtures in the run, add one of the following harnesses. The number of wires is based on whether the run will be dimmable, with emergency or just ON/OFF.

Add Wiring Harness Code After the Driver Designation

- PI1 - 3 Wire Harness (normally for non-dim applications) **\$16**
 PI2 - 4 Wire Harness (normally for emergency circuit) **\$18**
 PI3D - 5 Wire Harness (normally for 0-10V dimming) **\$19**
 PI4D - 6 Wire Harness (normally for 0-10V dimming and emergency) **\$22**

Engineered ends either accept end cap to complete run or to join two fixtures together for continuous runs.

For continuous runs, first remove the end plates on the fixtures you want to join together; then using bolts and nuts (4X), attach the two ends together. Be sure both fixtures are properly aligned before tightening the bolts. Repeat steps for as long as you would like to continuous run the fixtures. Finish run with the end plate attached to the last fixture in the run.

LINEAR PENDANT

All-In-One LED Channels Most Popular Pre-Configured Kits

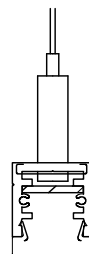

****Individual or Continuous Use****

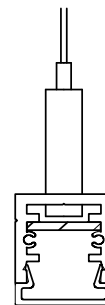

****Convenient and Simple to Install****

Based on your feedback, our brand new All-In-One LED Linear Channel is new and improved to provide the easiest channel in the industry to specify, order, and install. This integral driver channel in two different profiles provides the ideal solution for both individual fixtures (in 4 or 8 foot), and to join multiple channels for longer, continuous runs (in 4 or 8 foot multiples). This beautifully finished aluminum channel is so easy to install that the "do-it-yourself" can install in minutes; and professional installers will appreciate not only the reduction in cost, but also the speed in which installation can be completed. A specially designed integral wiring harness (ordered separately) makes joining two channels electronically simple and efficient. A unique, mechanical joiner bracket in conjunction with our special joiner tool allows for joining two or more channels together with no light leak and a clean connection.

For 0-10 Dimming. Change 401WH to 4015WWH and add \$8. For Emergency, add EM and \$188. Consult for other Direct/Indirect Options. Change WH to BN for Brushed Nickel and add \$40 per 4 ft. For LED arrays angled for partial up and downlight add UD after S. Consult for smart sensor option.

Add this Emergency to most LED Fixtures with Array and Driver for \$120.

The **ILB-CP10** from IOTA Engineering is a UL Classified LED emergency driver that allows the same LED fixture to be used for both normal and emergency operation. In the event of a power failure, the **ILB-CP10** switches to the emergency mode and operates the existing fixture for **90 minutes**. The unit contains a battery, charger, and converter circuit in a single can and is available in different mounting configurations for individual fixture requirements. The **ILB-CP10** will operate an LED array load at 10 watts with constant power at a rated output voltage of 10V-60V. The Constant Power design of the **ILB-CP10** maintains the output wattage even as the system voltage diminishes. Also suitable for field installation.

LED RETROFITS

LED Retrofits All-In-One Retrofit LED Troffer Kits

Convert an existing linear fluorescent fixture to a state-of-the-art Linear LED fixture in minutes with this LED All-In-One Retrofit Kit. Choose from two great styles of Linear LED fixtures that will not only increase lighting performance, save energy and reduce maintenance but provide a fresh new look for the space. The LED Center Basket All-In-One Retrofit provides the look of a popular direct/indirect linear fixture with a special designed reflector and LED lens to provide comfortable, abundant lighting. The Chicklet Retrofit Kit provides a luminous pillow styled lens and a high level of lighting with a dramatic appearance. Each kit mounts in minutes with all the LED components neatly engineered in one simple frame that mounts to two side rails that mount between the existing fixture body and the T-bar. Available in 2x2 or 2x4 sizes and a variety of wattage, lumens and color temperatures.

Install in Minutes:
Place Rails between fixture and T-Bar on each side. Then latch and secure All-In-One-LED-Retrofit into place.

THE SIMPLE LED SOLUTION

The most economical, practical and user friendly series of LED fixtures with the energy savings, quality of light, long life and hassle-free maintenance. X1 LED fixtures are UL Listed with the latest LED T8 Bypass lamps. Fixtures provide over 40% energy savings over comparable fluorescent fixtures utilizing less expensive fixtures than the fluorescent version and have flexibility to change wattage and color temperature any time. Fixture performance will evolve over time with the evolution of the T8 LED lamp technology. Concerned about maintenance with an LED array and driver fixture, X1LED solves that by utilizing LED T8 lamps that fit into the fixture just like a fluorescent lamp.

LED System

A complete UL Listed LED fixture with no ballast or driver to fail. Special red sockets to identify fixtures made for LED T8 lamps.

Flexibility and Long Life

Change the LED T8 lamp any time to different wattage, color temperature or lumens.

Premium LED T8 Lamps

US Energy Services use top quality LED T8 lamps that are field tested for demanding applications.

How To Add Emergency to X1LED

Separate LED Array added for Emergency.

KEYSTONE KT-EMERG-LED-12-1200-K1 LED EMERGENCY LIGHTING KIT

12W Constant Wattage - Ballast Battery Backup - Damp Location - 120-277V

Includes driver, separately housed 1200mAh Ni-Cd battery and 0.7" x 8" 1200 Lumen LED module for complete emergency lighting installations. When AC power fails, the driver will power the LED for a minimum of 90 minutes emergency illumination. Easy installation in existing LED or fluorescent fixtures with wiring diagrams and labels on all parts. Mounting hardware included. Full 5 year warranty on all components. Output Current 1000 mA-200mA - Output Voltage 12 ~41 Vdc

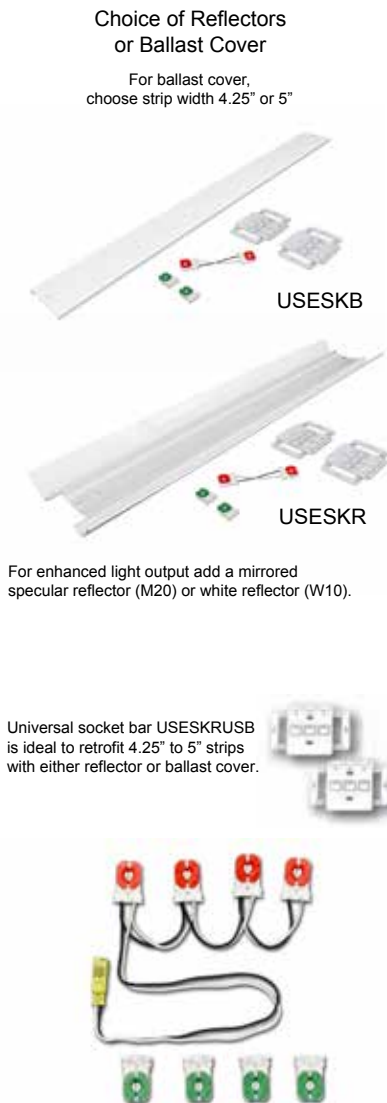

To order, add EMKT12 to end of X1LED item number and add \$157.

STATEMENT OF LIMITED WARRANTY

A. **US Energy Services, Inc.** warrants that all of its “legacy” Fluorescent or HID Product(s), other than ballasts, emergency battery packs, lamps and poles supplied in connection therewith, will be free from defects in workmanship and materials for a period of three (3) years from date of shipment (the “Warranty”). SUCH WARRANTY IS IN LIEU OF ANY OTHER WARRANTIES INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. **US Energy Services**, at its option, will repair replace, F.O.B. our factory, freight prepaid, any **US Energy Services** Product(s), other than ballasts, emergency battery packs, lamps and poles supplied in connection therewith, which are deemed, in its sole and absolute discretion, defective in workmanship or materials. Such repair or replacement is the sole and exclusive remedy available to any customer to rectify defects in **US Energy Services** Product(s), other than defects in ballasts, emergency battery packs, lamps and poles sold in connection therewith. Ballasts, lamps and poles are covered by separate manufacturer or factory warranties, if applicable at the time of defect.

B. **US Energy Services, Inc.** warrants that all of its indoor and outdoor light emitting diode (LED) fixtures, including the LED array, LED drivers and integral control devices, are free of defects in workmanship and materials for a period of five (5) years from the date of shipment. Unless otherwise expressly stated in writing, the LED array will be considered defective if a total of 15% or more of the individual light emitting diodes fail to illuminate. **US Energy Services** reserves the right to determine, in its sole and absolute discretion, whether to repair or replace defective LED fixtures or components. No charge-back, or reimbursement for in-the-field labor or material, or delay in installation, that results from defective products, will be honored, accepted or paid for by **US Energy Services**, unless expressly authorized in writing by **US Energy Services**. In no event shall any inside salesperson or outside sales agent of **US Energy Services** have the authority to bind **US Energy Services** to any such charge under this Warranty.

C. This Statement of Limited Warranty applies only when **US Energy Services** product(s) are installed in applications in which ambient temperatures are within the range of specified operating temperatures and are operated within the electrical values shown on the ballast or LED driver Label. **US Energy Services** will not be responsible for any failure of any **US Energy Services** product(s) that results from external causes such as: acts of nature; physical damage; exposure to adverse or hazardous chemical or other substances; use of reactive cleaning agents and/or harsh chemicals to clean **US Energy Services** product(s); environmental conditions; vandalism; fire; power failure, improper power supply, power surges or dips, and/or excessive switching; induced vibration; animal or insect activity; fault or negligence of purchaser, any end user of **US Energy Services** product(s) and/or any third party not engaged by **US Energy Services** improper or unauthorized use, installation, handling, storage, alteration, maintenance or service, including failure to abide by any product classifications or certifications, or failure to comply with any applicable standards, codes, recommendations, product specification sheets, or instructions of **US Energy Services**. Use of **US Energy Services** product(s), processes or materials supplied by any enduser or third party; or any other occurrences beyond **US Energy Services** reasonable control. **US Energy Services** also will not be responsible for any substantial deterioration in fixture paint finish that is caused by failure to clean, inspect, handle or maintain.

D. Ballasts, emergency battery packs, lamps and poles are covered by separate manufacturer’s warranties. Therefore, each **US Energy Services** customer or end-user must timely notify **US Energy Services** or the manufacture directly, if directed to do so by **US Energy Services** in order to preserve the applicable manufacturer’s warranty available under this provision. CUSTOMER OR END-USER FAILURE TO TIMELY COMPLY WITH THIS NOTICE PROVISION MAY VOID THE MANUFACTURER WARRANTY.

E. IN NO EVENT SHALL **US ENERGY SERVICES, INC.** BE RESPONSIBLE TO REPAIR OR REPLACE ANY PRODUCT THAT WAS NOT USED FOR ITS INTENDED PURPOSE OR THAT WERE INSTALLED OR MODIFIED IN ANYWAY NOT IN ACCORDANCE TO **US ENERGY SERVICES, INC.** EXPRESS WRITTEN INSTRUCTION.

F. No agent, employee or representative of **US Energy Services, Inc.** has any authority to bind **US Energy Services, Inc.** to any affirmation, representation or warranty concerning Products sold by **US Energy Services, Inc.** unless authorized to do so in writing.

We reserve the right to change design, materials, LED’s and finish in any way that will not alter installed appearance or reduce function and performance.
