

## **President's Message**

**John Schnittgrund**

**We have made it to September, and all is well in the retiree world. The picnic was an enormous success and returning to the BBQ lunch was well received. The pandemic made us change over the past couple of years and returning to the BBQ was a welcome choice.**

**The next events: Dinner at Cinzetti's September 11, and the Laughlin Reunion are close at hand. These events have proven popular, and we are looking forward to seeing as many friends as possible.**

**The theatre events we have done this year in conjunction with the museum have proven to be extremely popular, so this year in Laughlin there will be a program highlighting a case from the past, at the Monday lunch. As usually happens in Laughlin the conversations always seem to revolve around our experiences on the job. If the presentation is something you might have been involved in, please do not hesitate to join in on the conversation. If not, I think you will enjoy learning something new,**

**Golf will again be included this year. Last year the golf was well received and lunch at the golf course is included in the package, along with a new hat for this year's event. Hats will be available for sale for those who do not golf.**

**Laughlin offers some other entertainment choices for attendees. Getting together and just enjoying each other's company makes this event special, but there is also bowling, live music and river excursions. The costs have increased a little just as everything seems to cost more since the pandemic, but this is still a very affordable vacation. We are looking forward to seeing you in Laughlin.**

**There is nothing to report regarding pensions. It is nice not to be reacting to any problems . As always if you have any questions or need an answer to a question do not hesitate to call.**
