

Diversity vs. Discord

When I disagree,
am I fomenting discord
or promoting diversity?

Diversity leads to
variety;
discord breeds
disunity.
Diversity enhances
life;
discord generates
strife.

Diversity opposes
uniformity;
discord threatens
unity.
Diversity begets
pluralism;
discord leads to
division.

Difference within cohesion:
this is diversity.
Difference with dissension:
that is discord.

Loyal opposition
creates diversity;
self-serving opposition
sows the seeds of discord.

St. Paul observes how
the parts of a living body
are diverse,
but not discordant.
