Safety First

Water Toxicity: Handlers should educate themselves about water toxicity and how to treat their dogs. Dogs that drink a significant amount of water may be at potential risk for Water Toxicity.

Dogs must wear life jackets: This allows for the dog to focus on performing the exercise without the need to exert effort to remain afloat.

Handlers may wear life jackets, wet suits, swim fins: Handlers should be confident in the water to safely perform the course swimming with their dog. A life jacket may be worn if desired. A wet suit may be helpful for extra buoyancy and to prevent accidental scratches from the dog while working in close proximity to the handler in the water. Swim fins make propulsion easier.

Dog Free Zone

Only the dog performing the Water Skills course may be in the beach area. The judge will designate a crating area or distance perimeter for all other participating dogs.

Personal space: Handlers should be observant of their dogs at all times and not put pressure on other dogs by greeting, sniffing or encroaching on another dog's personal space.

Safety and aggression: In the event the host, officiating judge or official feels that any dog or handler's behavior threatens the safety of the show grounds they will be directed to leave the show grounds.

Unsportsmanlike behavior: In the event the host, officiating judge or official feels that any person is acting in an unsportsmanlike manner they may be directed to leave the grounds.
