JoAnne,

Thank you for your inquiry. The information provided in the attached letters is consistent with the information found on the road bond website www.pima.gov/roadrepairbonds.

Specifically, the statements in the letter regarding pursuit of other unsuccessful options and the effect on property taxes are covered on the website main page, the FAQs section and in the linked [Proposition 463 Informational Brochure](#).

The content on the website and in the letters is informational and not a use of county resources to influence the election. Notwithstanding, to avoid any future confusion, subsequent letters will be revised to simply refer individuals to the road bond website.

Thanks,
Carmine
