

Award Winning Design, Safe & Simple

RollEase introduces the Safety Ring Lock® System, the newest addition to the RollEase Child Safety Offerings.

- The Safety Ring Lock® System eliminates the lift cords' ability to form dangerous loops.
- The Ring Lock® and Forever Ring™ are designed to replace shrouded cords and ladder tape/cords while saving time and money on labor and material costs.
- Components are made of a unique proprietary blend of certified pure material guaranteed never to chip, crack, yellow or break. Each component is transparent so as not to detract from your design.
- Level Locks™ are guaranteed to hold 10 lbs. per cord column.
- Creates perfectly flat waterfall folds with every lift.

Short Stack Ring Lock®

Ring Lock® Set

for each row of each column

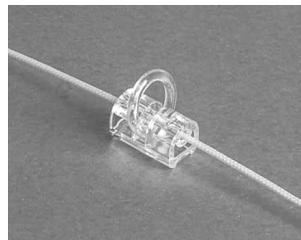

Short Stack Ring Lock®

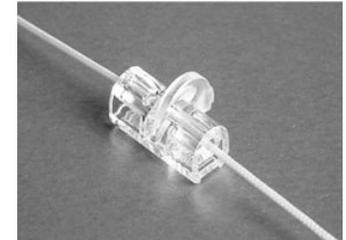

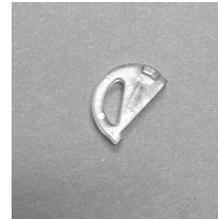

Level Lock™ Set

for the bottom row of each column

Forever Ring™

Level Lock™ Insert
