LAWN & SPRINKLER SERVICE

“THE BIGGEST NAME IN OUTDOOR SERVICES”

LET US INTRODUCE OURSELVES

Green Giant Lawn Enhancement, LLC ("Green Giant") has been providing lawn and sprinkler services to Metropolitan Detroit properties since 1999. As the premier company in the field, our customers have come to rely on us as their go-to company for all things lawn and sprinklers.

Our focus since day one has been to provide fast, reliable service without the the typical headaches consumers encounter while dealing with contractors. Our focus on customer interaction and communication through technology has set us apart from most in the field. When you need a company who does what it says it's going to, then you need Green Giant.

// WHO WE ARE

Green Giant is made up of a hard working group of family members dedicated to the craft of installing custom lawn sprinklers, installing quality sod, and maintaining everything lawn and sprinklers. We understand that training is an important component of any company

and its ability to provide quality and up to date service. That's the Green Giant difference. We focus our attention on being the best and always becoming better at what we do. Count on Green Giant to know what you need to help you achieve your desired result.

// WHAT WE DO

As the premier lawn and sprinkler company in metro Detroit, we provide the services customers have needed but have had a difficult time finding a quality company to provide. Most of our customers have been with us since the early days of the company's start and have stayed because they have been unable to find a matched service.

When it comes to service professionals, count on Green Giant as your go to for all things lawn and sprinklers.

“EASY DOES IT” SERVICE PROCESS

Our “Easy Does it” service process is unlike any other in the industry. We want our clients to have an easy enjoyable experience when hiring us, so we do all we can do to make it that way. It starts with multiple ways to get estimates

including or EZ Estimate form online. Then we make it so work begins with no money down in most situations. So, there are no worries about whether the contractor is taking off with your money.

As part of the process and in all aspects of our services, we offer options of all kinds and all materials. If you want a sprinkler estimate without sod, no problem. If you want a package estimate, not a problem. We make it easy. Our package pricing for sod and sprinklers makes us one of the only in the industry offering a

sod and sprinkler package that is installed usually in the same day. Think about this. We get to the house in the morning and by noon, you have green grass with water taking care of the maintenance. Once we are complete we show you the controller, run through the system with you, and collect payment in full. Everything

done in one day. No headaches, no finger pointing, and best of all, no waiting for another contractor to show up. Our “Easy Does It” process is just that.....EASY. With Green Giant we make it easy because we know you have better things to worry about.

SPRINKLER INSTALLATION AND OPTIONS

// NEW SPRINKLER INSTALL

The cornerstone of any beautiful lawn, a new professionally installed sprinkler system is key to the longevity and quality of your grass. All systems include the best components in the industry and are installed according to the specifications.

// SHRUB ZONES

Shrub zones are designed to water only plants near the house or in large beds. Some clients prefer to take control over their watering of their plants and that is what adding a shrub zone does.

// GET WET EFFICIENCY UPGRADE

Our Get WET system (Water Efficient Technology) is an upgraded system that helps conserve water by reducing over pressured heads and controlling the system during a rain.

// 2ND WATER METER

Adding a second meter allows the water used outdoors to be metered for water only and eliminates the cost of the sewer charge. Only allowed in Shelby Twp., Chesterfield, Rochester, Rochester Hills, Auburn Hills, Warren, Washington Twp.

// RID - O - RUST

A Rid-O-Rust system is installed for those customers using well water so that the water does not turn your brick, landscape, or concrete brown from the iron in the water. There is always a risk of overspray, so this system helps protect you from the risk of rusty water.

// WIFI AND RAIN OR SOIL SENSORS

Adding additional functionality to your system with a WiFi controller allows you to control your system from your smartphone. An added rain or soil sensor will shut your sprinklers off if it's raining or if the soil has hit a certain threshold which saves you money.

SOD, SEED, & GRADING RELATED SERVICES

// SOD INSTALLATION

We use only the highest quality daily fresh cut sod for all of our customers. Our close ties with the sod farmers and quality control procedures ensure you will receive only the best sod for your yard.

// SEED/HYDROSEED APPLICATION

Seeding and/or Hydroseed is a great alternative to sod installation on larger sites where the cost of sod is cost prohibitive or where specific types of seed are preferred. We do both cultipacker seeding (drop seeding) and hydroseeding to hold moisture better.

// TOPSOIL INSTALLATION

Topsoil is always an option that helps retain moisture, fill in low spots, and level the ground. Though not mandatory for all yards, adding topsoil before seed or sod will never hurt you or your long term lawn.

// SOD REPAIR/RESTORATION

Small repairs, pool repairs, septic field repairs, and whole yard tear-outs of existing lawns is a key component of our service offering. Don't let that old sod get you down, we can make your yard look like new.

// EROSION CONTROL

Adding erosion control blanket, straw, or hydroseed to a site can stabilize the soil and keep dirt from running off into storm drains, retention basins, and into the street. We have the ability to install all types of erosion control measures.

// GRADING

All new installations come with ground preparation where the ground is properly leveled so that the sod lays properly, but large scale grading and topsoil placement is available for all yards that require it.

// HIDDEN PET FENCE INSTALL

We now install offer hidden pet fences with our sod installs for your convenience. No training is available but the process just got easier for you because there is no calling and coordinating with a different company.

// PUTTING GREENS AND TURF

Putting greens and artificial turf for pets and for your family are a great way to avoid the maintenance that comes along with real grass and also offers loads of entertainment. Putting greens, dog runs, whole yard lawns - we do them all.

// LOW-VOLTAGE LIGHTING

Your home is beautiful so why not show it off in the evening. Lighting provides safety and security for your family and makes your home stand-out at all hours of the day.

// DOWNSPOUTS/DRAINAGE

Installation of gutter extensions helps divert water further away from the house so that water does not fall close to the foundation. Most downspouts are approximately 10 feet from the house with a spring-loaded pop-up at the end.

Our comprehensive line of services focus on the beauty and function of your lawn and landscape so that your family can enjoy the outdoors for years to come. Let our knowledge in all things lawn and sprinklers help you complete your next project.

// OUR GUARANTEE

We guarantee that we will provide a good quality service at a good price and that we will stand by our work and our warranty per the terms of our agreement. There will be no surprises.

// STATE CERTIFIED

Our staff and company are state certified to apply lawn treatments and to diagnose lawns. All sprinkler systems come with plumbing permits and backflow testing if required in your area.

// FINANCING OPTIONS

We accept all forms of payment including all credit cards. We know too that new homes come with new bills, so we offer 12 months financing which is subject to credit approval.

// WATER EFFICIENT

Our sprinkler systems are water efficient because we know water is not as cheap as it used to be. Trust our water efficient systems to help you conserve water while still maintaining one of the nicest lawns on the block.

// THE ADVANTAGE OF OUR SERVICES

We know there are many options when choosing a contractor to handle your project, but let our long-term experience work for you so the project is as easy as you'd expect. As a local leader in irrigation diagnostics as

well as lawn/sod care, trusting the experts is the logical choice. Our easy process gets you quick prices, makes faster contact, and makes payments easier when you choose Green Giant.
