

CAPABILITY STATEMENT

Synergetic Agricultural Products, Inc. dba **Synagro**, is an alternative agriculture company located in Habersham County, GA. Alternative agriculture focuses on the creation of high-value end-goods from underutilized and untapped products and resources. **Our mission is to pioneer the commercialization of the many foodstuffs, commodities, and by-products which alternative agriculture yields.**

We focus on rabbits because of their **distinctive ability to produce large quantities of highly nutritious meat** and their **uncommon capacity to use various untapped feed resources**. We have also committed to selling rabbit as a socially transformative product, because of its potential to be a new and exciting meat to the American consumer.

CORE COMPETENCIES

- ✓ **Synagro** can produce monthly **hundreds of pounds of sustainably and humanely raised whole rabbits** for human and pet consumption.
- ✓ In addition, we sell farm-ready **rabbit compost, mulch, and fertilizer** for agricultural and commercial use.

DIFFERENTIATORS

- We sell **high-quality, non-GMO, all vegetarian-fed, steroid-, hormone-, antibody-, and vaccine-free white meat**.
- We are guided by a principled 21st century supply chain leadership outlook, which translates into our **exceptional customer service and steadfast loyalty to our business partners**.

CURRENT PERFORMANCES

We have an agreement with one of Georgia's largest and most respected online meat retailers to supply them with rabbits.

We are negotiating with several pet food companies to supply them with rabbit meat.

We have already been contacted by buyers for our rabbit compost, mulch, and fertilizer.

Synagro's vision statement is and always will be WASTE NOTHING!
