

CRS800 RECUMBENT STEPPER

The CRS800 Recumbent Stepper is the perfect solution for those clients wanting a low-impact, full-body workout, while performing a functional movement with minimal stress on lower body joints. The seated stepping motion utilizes a linked, linear motion enabling users to self-adjust the stroke length to accommodate their range-of-motion capabilities. The smooth stepping action is complemented with oversized cushioned foot pedals, linked natural upper body motion with large cushioned multi-grip handles, and a step-through frame design for users with limited mobility.

CRS800 RECUMBENT STEPPER

- Linked upper and lower body linear pattern
- Self-adjusting linear step range from 1 to 12.5 inches
- Step-through frame design for users with limited mobility
- High-density foam seat pads with recline and fore/aft adjustment
- Cushioned and adjustable multi-grip handles for comfort and variety
- Contact and telemetric heart rate capabilities to make the workout more effective
- Oversized cushioned foot pedals for a comfortable feel
- Two cup holders located conveniently on each side of the seat frame

CRS800 CONSOLE FEATURES

The design of the electronics features an intuitive interface for ease of operation, large easy-to-read displays, and multiple program options for users of all levels of fitness. A storage tray for a phone, keys, or an MP3 player, seat mounted pulse grip handles for a comfortable hand position, and a turbo cooling fan to keep your clients cool and encourage them to work out longer.
