The Hutterian Brethren Church of Crystal Lake donates \$2,000 to The Health Foundation for Lab Equipment in the Yorkton Regional Hospital

Yorkton – “We are very happy to contribute to our local healthcare and contribute to the communities around us,” said George Hofer, Manager of the Hutterian Brethren Colony of Crystal Lake. “We live in this area and have this philosophy that says if we possibly could we should contribute to our area and try to make it a better place.”

“This is a very generous donation and it comes at a great time,” said Ross Fisher, Executive Director of The Health Foundation. “We are hoping to raise the money for this microscope by the end of this year, and we are getting closer. Lab equipment is very important for healthcare; lab tests will usually provide the first indications if something is wrong, or if a person has risk factors that should be looked into.”

“Raising the money to buy this equipment by the end of year is important,” continued Mr. Fisher. I really hope others will notice this donation and think about making their own donation.”

“The Hutterian Brethren Church of Crystal Lake has made a number of donations to help our local healthcare since moving into this region. We are very grateful for the continuing support they provide for our work and for their generosity,” said Ross Fisher.
