

Staghorn Fern Propagation Workshop

When: 10/21 at 10:00am

Where: 15201 De La Cruz Drive

Have you ever marveled at the majestic Staghorn Fern, but were afraid to own one because they seemed so fragile and hard to care for? Or, do you already own a Staghorn fern and would like to learn how to divide it?

Well wait no more!

On 10/21, the River Valley Garden Club will be giving a hands-on demonstration where attendees can learn how relatively easy Staghorns are to care for, divide, and mount. The demonstration is free, and ready-to-hang plants will be offered for sale to those interested.

Space is limited, so please reserve yours now! Light refreshments will be provided. To reserve your spot, please contact Nancy Clark at 916-769-0553, or, nancyclark475@sbcglobal.net.

Non-Club Members are also invited to attend, and this event will be advertised on RanchoMurieta.com.
