Cancellation deadline is Friday, January 8th.

Location / Directions: Please see attachment "Meeting Location"

DCVG and ACVG Coating Surveys and Method Comparison

Paul Sedlet, P.E.

President, Accurate Corrosion Control, Inc.

Our January, 2016, speaker will discuss how to perform DCVG and ACVG coating surveys, will present practical considerations of these methods, and will illustrate the advantages and disadvantages of each technique. A case study in which both surveys were performed over the same section of pipeline will be highlighted. How did they compare? You will find out ONLY if you attend this presentation!

Paul Sedlet is a certified Corrosion Engineer in the State of California and has been President of Accurate Corrosion Control, Inc. since 1992. Paul has a B.S. in Mechanical Engineering from the University of Arizona, Tucson. He entered the corrosion field in 1986 after graduating from college. Paul became intrigued with corrosion after taking an elective class his senior year that entailed conducting a variety of corrosion experiments. Thus inspired, Paul sought a career in corrosion, and in 1986 he became the fourth employee of Accurate Corrosion Control, Inc. He purchased majority ownership of the firm in 1992 and has been at ACCI ever since. Paul lived in San Diego from 1998 to 2001 where he earned a California Professional Engineering license in Corrosion (2001). He currently lives in Phoenix, Arizona. He enjoys hiking and fly fishing when he is not playing with anodes and cathodes!

NACE SAN FRANCISCO SECTION

INTERNATIONAL

MANY THANKS TO OUR 2015 SPONSORS!!

NACE International – The Corrosion Society
 Executive Offices: 1440 South Creek Drive -Houston, Texas 77084-4906
