We can design and build anything for you. Just read our reviews!

We want to share one our recent remodels. This outdated kitchen had older cabinets, laminate countertops, outdated appliances and backsplash, flooring and lighting. We completely renovated this kitchen by adding some new cabinetry, moldings, sink, faucet, appliances, lighting, new farm sink and cabinet hardware. This kitchen is definitely ready for a great summer season at the beach.

Kitchen Design Layout: How To Plan Your Perfect Remodel

BTL 3/19

Choosing the kitchen layout for your new or remodeled kitchen can be incredibly stressful, especially as you sort through interior decorating magazines, look at projects on websites and see all of the options available to you. However, as long as you are able to keep a clear head throughout the process, planning a kitchen remodel can be one of the most enjoyable things you've ever done! Here are our best tips for planning out a great kitchen design layout.

What Do You Want In Your Kitchen Design Layout?

Chances are, part of the motivation behind your kitchen remodel is not being happy with the way that your current kitchen is laid out. What don't you like about your current kitchen? What do you want to change the next time around? Think about these things when you make your kitchen remodel decision. Knowing what you don't like can be just as helpful as knowing what you do like!

What Workspace Do You Need?

What do you like to do in your kitchen? If you are a baker, make sure that you have plenty of space for baking. If you love to cook, ensure that you have enough cooking space to accommodate your hobby. You could even install bigger pantry or even a butcher block counter. Plan your kitchen layout around what you do in the kitchen to make sure that the workspace is properly used.

The Flooring and the Countertops

Two of the most important things to keep in mind when selecting your kitchen design layout is the kitchen flooring and the kitchen countertops. Depending on the material you want to use it might be challenging to create your countertop to your desired size. Make sure that you choose durable materials that will last for decades without needing to be spruced up.

Find a Design/Build Remodeler. Now here is the easy part. Atlantic Kitchen & Bath has everything you need for your kitchen remodeling project. Our design team can bring all your ideas together and create a kitchen design that is perfect for your needs. Our building team can make sure that your remodel stays on track and is completed in a timely fashion.

Plan your remodel

A Recipe for You!

These blueberry and lemon buttermilk scones have a sugary, crispy crust, a soft and pillowy middle, and pockets of juicy, exploding blueberries. In other words, they're insanely delicious. The fruit is interchangeable so use whatever you like. But you really can't beat blueberry + lemon.

INGREDIENTS

2 1/2 c. flour
1/2 c. sugar
2 1/2 tsp. baking powder
1 tsp. salt
1 stick cold butter, cubed
1 c. blueberries
1 tsp. lemon zest
1 large egg, beaten
2/3 c. buttermilk
1/2 tsp. almond extract
1/2 tsp. vanilla extract
2 tbsp. melted butter, for brushing
1 tbsp. coarse sugar, for sprinkling

DIRECTIONS

Preheat oven to 400° and line a large baking sheet with parchment paper. In a large bowl, whisk together flour, sugar, baking powder, and salt. Add butter and use your hands (or a pastry cutter) to cut butter into flour until crumbles are the size of peas. Add blueberries and lemon zest and toss to coat.

Make a well in mixture, then add buttermilk, egg, and extracts. Mix with your hands until just combined. Turn dough out onto a lightly floured surface and pat into an 8" circle. Cut into 8 triangles and place on prepared baking sheet. Brush scones with melted butter and sprinkle with coarse sugar. Freeze for 10 minutes. bake until lightly golden, about 25 minutes. Let cool 5 minutes then transfer to a cooling rack to cool completely. Enjoy!

Creating the Perfect Kitchen Backsplash

A kitchen backsplash not only adds a refreshing touch to your space but also acts as a focal point to bring the whole room together. Give your kitchen a boost by adding some of these details when you are planning your remodel.

Stun Your Visitors with A Sparkling Kitchen Backsplash!

Your home reflects your personality, so make sure to amaze your visitors when they enter your remodeled kitchen. From glass backsplashes to mosaic designs, your kitchen backsplash will become the focal point of your space. In older homes, the accepted style was to use granite or tile for the walls of the kitchen and although the aesthetics of this look were decent, the same aesthetics also required much upkeep. For homeowners seeking a sleeker, more modern look, glass is the way to go. Besides, glass also imbues the kitchen with more light, contributing even more of a lighter, airier feel to your home as a whole.

What Else Can A Backsplash Do For You?

Glass backsplashes cover an area in your kitchen from the top of the stove or the work surface up to where it meets the ceiling. Feel free to use this space as your own personal canvas! A wide variety of colors and lights can accentuate this part of the kitchen. With an enhanced look and feel, everyday cooking will feel like a special occasion. If you've got a particular design in mind already, then matching colors should be a breeze. Because they have no pores, glass backsplashes are easy to clean. By contrast, tile and granite might absorb stains if cleaning is left unattended for too long. Also, glass backsplashes are heat resistant, so there are no worries there either. Durability and rigidity are also two more benefits of glass backsplashes; unlike other surfaces, these backsplashes are fabricated from a type of glass known as diamante.

Come visit our showroom and see some of the exciting glass backsplashes we have on display.

Time for Something New

The warmer weather is starting to arrive, so take advantage of that time to consider starting some of these home remodeling ideas based on 2019 trends.

Remodel Your Kitchen

The #1 most desired remodel for 2019 is to redo your kitchen. A less expensive option can be to just have new countertops, faucet and sink installed which will really update the look of your kitchen. Full remodels feature new cabinets, countertops, flooring, lighting, plumbing and appliances. According to Houzz and HomeAdvisor this is the most desired type of remodel to increase value as well as livability.

Renovate Your Bathroom

Whether your owner's suite no longer feels as spa-like as it once did, or if your guest bathroom isn't as pleasant as it was a few years ago, it's time to make a change. For smaller uplifts, you can decide on some new faucets, swap out the shower head, and install a new toilet. For larger remodels you can change the sink, countertop, the vanity, the medicine cabinet, the flooring tiles, redo the shower and get new shower doors. Also consider upgrading the lighting because bright sunny bathrooms are trending.

Remix a Particular Room

Think about all the rooms that are in your house. You can convert the basement, attic or the garage into new living spaces. For instance, if you don't already have a home office, consider transforming one of your extra rooms into a place where you can get plenty of work done, distraction-free or consider a rec-room or media room for kids and company or adding a spare bedroom to your existing attic space.

Make these remodeling projects come to life with Atlantic Kitchen & Bath. Whether you are looking for a kitchen upgrade or a completely brand new design for your kitchen or entire home, the experts at Atlantic Kitchen & Bath are here to help with all of your design and building needs. We provide remodeling services for our valued

customers throughout Sussex County Delaware. If you are ready for a quote give us a call at 302.645.8500 and to see how we are different than other companies.

Did you know that Atlantic Kitchen & Bath uses Builder-Trend for staying in touch with our customers. This is a cloud based interactive construction software that also has an App for phones. Our customers can easily access their job documents, get updated schedule information, receive regular photo updates, be able to share photos to Facebook or other apps and easily stay in touch with our building project manager and office staff. It's a great tool and our customers love it.
