

“Anyone Can Learn to Draw!”

Have you ever wished you could draw but assumed you couldn't? Tried a tutorial or self-paced class that went nowhere? I believe that anyone can learn to draw given simple, patient, and encouraging instruction in a welcoming and fun environment.

Drawing allows you to step away from day-to-day pressures, grow your creativity, and bring enrichment and personal satisfaction into your daily life. Those who spend time drawing agree it feels like a form of meditation, leaving you relaxed and with a sense of accomplishment.

I am offering my next live, online drawing class, "**Anyone Can Learn to Draw!**" Monday evenings 6:30pm – 9:00pm, February 1 – March 8, 2021.

Students will:

- Learn basic drawing skills to give them a solid foundation in fundamental principles such as how to properly use their tools, light and shadow, perspective, composition, reflections, and much more.
- Be able to take advantage of one-to-one time with me during office hours to work on individual goals.
- Gain knowledge, confidence, see improvement week over week, and learn they absolutely can draw.

The course is ideal for:

- Total beginners
- Those who have been away from drawing or may have taken an art class in high school or college
- Those who learned to work in a single medium but never really learned to draw
- Intermediates looking to refresh their skills
- Class is for adults 16 and over

Monday evenings February 1st through March 8th

6:30pm PST - 9:00pm PST

Class Fee \$180.00 *Students are responsible for their own class materials

Class will be conducted over Zoom

Contact Peggy at peggy@milovina-meyer.com for registration information

Peggy Milovina Meyer is a San Francisco Bay Area artist working primarily in colored pencil, graphite and pen and ink. Her work focuses on the natural world. Peggy studied art at De Anza College and San Jose State University. She teaches drawing in multiple mediums. In her teaching, Peggy strives to introduce newcomers to the enjoyment of drawing and self-expression, build confidence, and the importance of balance between creativity and logic.
