Speech-Language Pathology Journey

India is one of the most dynamic and eclectic countries on the planet. Representing diversity in all its forms—people, religions, traditions, clothing, dialects, and habits—this remarkable country links East Asia and Europe, but belongs to neither. From the exquisite majesty of the Taj Mahal, to the pink allure of Jaipur, to the legacy of Mahatma Gandhi, India exudes a sense of mystery and promise.

Program Highlights

- 7 nights / 10-day journey through the Golden Triangle
- Explore **Old and New Delhi** including a visit to the India Gate, Red Fort and Jama Masjid.
- Check a visit to the **Taj Mahal** off your bucket list! A mausoleum built by Shah Jehan for his queen Mumtaz Mahal, the Taj Mahal is said to have taken 22 years and 20,000 craftsmen to construct.
- **Accompanying guest program** available on this itinerary.

Focus on healthcare

- Focus on learning about the **state of speech-language pathology education and services in India** including interaction with individuals who work with children and adults with communication challenges.
- Interact with **speech language pathology and audiology professionals** from a variety of facilities in both Delhi & Jaipur such as the **Indian Speech and Hearing Association**, a local medical school as well as a local clinic and school.

Focus on the community & culture

- Giving back and engaging with the local community is an important part of your journey. Spend time with a facility dedicated to giving back like **Disha: Resource Center for the Disabled** who provide an opportunity for children with multiple disabilities to develop to their full potential.
- Gain authentic cultural insight during an evening spent enjoying a **home-cooked meal with a local family**.

Program Leader: Elise Davis-McFarland, PhD, CCC-SLP

- Elise is a Fellow of the American Speech-Language and Hearing Association. She served as 2018 President of ASHA. She is an experienced organizational leader, administrator and consultant with experience in association leadership and a background in all functional areas of higher education and speech-language pathology. Her clinical practice includes children and adolescents with high-incidence developmental disabilities, preschool education development, literacy development, program development, course development, undergraduate and graduate
