

1983 Jaguar XJ6 Project Car for Sale

I have had this project XJ6 for many years. As I have enough Triumph restoration projects to last several life times and was never too excited about the Jag, I have decided to sell the Jag at a loss.

This Jag XJ6 is not running and was last run two years ago. The fuel tanks need to be repaired or replaced. The body is straight and sound. There is some surface rust but very little perforation. There are 94,001 miles on the car. This car is complete and located in Monroe, CT. The first \$500.00 takes it. Contact Dave Pettigrew at PRFGDWRNCH@AOL.COM or call 203-261-9691 for answers to your questions.
