CP1

1080p Vehicle Telematics Camera

PROFESSIONAL IN-VEHICLE CAMERA SYSTEMS FOR
COMMERCIAL FLEETS

CP1 The SmartWitness CP1 is the world's most advanced incident camera with powerful 3G video transmission, GPS tracking and drive behavior data.

Developed to provide evidence of events leading up to and during a road traffic accident, the CP1 provides instant notifications & videos of safety-critical events on the road.

- ⦿ Real-time HD image of driver's view -170° angle
- ⦿ Simple all-in-one design, easy installation
- ⦿ Video sent in real-time via email or to your telematics system
- ⦿ Up to 166 hours recording on internal SD card
- ⦿ Instant notification via 3G
- ⦿ Live impact alerting including: location/speed/event footage
- ⦿ Tamper-resistant design for commercial fleets

SD Card

CP1 makes constant recordings of video footage and drive data on a loop as the journey continues. This data can be accessed manually at any time by retrieving the CP1's SD card and inserting into your PC. The analysis software allows you to view recorded video and drive data evidence of an event.

SmartMail

SmartMail was developed with the small/medium fleet operator in mind. It delivers driver safety and protection information to you within moments of an incident taking place. Using CP1 with a cellular modem, safety-critical road events will automatically transmit an email notification with the video clip and event information enclosed. An online portal is provided to help manage all vehicle events.

SmartAPI

CGS-SmartWitness enables CGS Fleet to pull video, GPS data, audio, & G-Sensor data directly from CP1 and onto our Telematics-GPS tracking software. Instead of hosting your own solution with the local server model, CGS Fleet will host it on many options of portals, with the convenience of an integrated system. One invoice, multiple options of UI.
