

SC-2K-UTV-X

Single Column 'Multi-Use' UTV & Mower Storage / Service Lift

2,000 lbs. Capacity

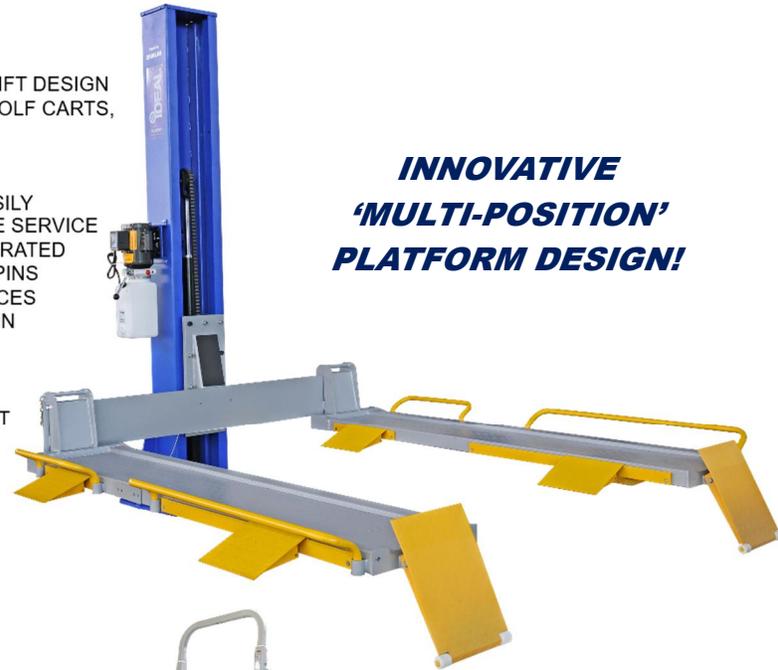

The iDEAL SC-2K-UTV-X is an innovative 2,000 lb. single column, high-rise 'multi-use' storage & service lift, incorporating 'multi-adjustable' platform design with multi-directional front & side vehicle loading for most ATV's, UTV's, Golf Carts & Riding & Zero Turn Mowers. The low-profile multi-adjustable platforms incorporate spring-loaded 'quick release / locking nylon rollers & brackets mounted to the underside of each platform, making adjusting the platforms width's 'quick & easy'. Each platform is secured to the bolster via HD lock pins & retainer brackets once the desired platform width is set. For additional space saving benefits, the power unit can be easily mounted to either the front, side, or rear of column providing the best fit in a shop or garage! In addition, iDEAL SC-2K-UTV-X 2,000 lb. Lift comes standard with durable powder-coat finish, 8ea multi-position side ramps, wheel stop 'pivot' ramps with protective nylon rollers, quick removal tubular wheel stop bars for platform sides. Easy lift operation is provided with high quality electric / hydraulic 115V DURO power unit, HD hydraulic chain-drive cylinder and single point manual lock release with 20 differ locking height positions.
