

THE WALLS OF JERICHO

CYDONIAN BLUEPRINTS OF MARS

Curse of the Greater Joshua

by Luis B. Vega

'On the 7th day, they got up at daybreak and marched around the city 7 times in the same manner, except that on that day they circled the city 7 times. The 7 time around, when the [7] Priests sounded the 7 trumpet blast, Joshua commanded the army, Shout! For the LORD has given you the city! The city and all that is in it are to be devoted to the LORD. Only Rahab the prostitute and all who are with her in her house shall be spared, because she hid the spies we sent.' -Joshua 5:15-17

This study is inspired by the article entitled, *Mathematical Prophecy or Predicting the Future* by Adam Eliyahu Berkowitz, June 18, 2018 for BreakingIsraelsNews.com. The theory of Kullok is astonishing if true. What was noted was the year of the crossing of the *Jordan River* by the Israelites. With respect to this time marker, the first city the Israelites encountered was Jericho. Thus, a look at Jericho's ancient ley-lines to see if there is any astronomical correlation is presented. True to form, the ancient city of Jericho also appears to configure the *Martian Motif* layout. This study will attempt to identify the main structures within Jericho proper. For context as to Kullock's theory, the following exurbs will be noted.

'The inclination of the planet on the year of the immigration plus the constant angular value equals the latitude of a border of Israel,' Kullok said. 'The mean inclination of the earth's axis has decreased continuously during the 3,500 years investigated in this study; from the biblical time of Israel crossed the Jordan River after their biblical Exodus from Egypt until present times,' Kullok explained. 'For each point in time, biblical and historical, the earth's axis has a different mean inclination or axial tilt. For the contrary, the latitude of physical and biblical borders (or places), are fixed geographical values obtained in accordance with the Book of Joshua. The algorithm is a mathematical expression involving a correlation between points in time of history and the latitude of a place or border in the Biblical Land of Israel.'

'The formula means that if I know the latitude of the border, I subtract the constant angular value to obtain the mean inclination of the earth, from where the time at which this inclination took place gives the date of the event,' Kullok said. 'Conversely, if I know the date, I can use the formula, insert the axial value and get the latitude of the border. This is an absolute correlation.' 'Put simply, the discovery shows that the Jews come back to Israel at fixed times that are set in the forces of nature, in the sun, stars, and earth,' Kullok said. 'The timings given by the algorithm should be considered as predefined by astronomic and geographic physical factors, which are not under human control,' explained Kullok. 'This means that the timing of a significant number of biblical and historical events involving the migratory movements of the Israelites to and from the Biblical Land was and will be predefined.'

Historical Context

In terms of the historical legacy of Jericho, it is currently in the Palestinian Territories and is located near the *Jordan River* in the *West Bank part of ancient Judea*. It is the administrative seat of the Jericho Governorate, and is governed by the *Fatah* faction of the *Palestinian National Authority*, formally known as the PLO. The city was occupied by Jordan from 1949 to 1967 and has been held under Israeli control since 1967. The Israeli administrative control was handed over to the Palestinian Authority in 1994. Jericho is described in the Hebrew Bible as the 'City of Palm Trees'. Jericho's name in Hebrew, *Yeriho*, is generally thought to derive from the Canaanite word *reah* which means 'fragrant'. Other theories hold that its name originated from the Canaanite word for Moon, *Yareah* or the name of the lunar deity Yarikh.

Jericho alternatively can mean the 'City of Man' where the center of the worship of the Moon God, Al-lah was venerated. This practice would coincide with the *Face of Mars*, Ala-lu, the supposed *King of Nibiru* being outcast to Mars from Earth. This religious concept came actually from Semiramis and Nimrod in the Shinar. The Christian *Gospels* state that Jesus of Nazareth, as the 'Greater Joshua' passed through Jericho where he healed blind beggars. This miracle inspired a local chief tax-collector named Zacchaeus to repent of his dishonest practices. The road between Jerusalem and Jericho is the setting for the *Parable of the Good Samaritan*. It was in Jericho that the amazing Biblical story of Joshua tells how the walls came down at the instructions of YHWH. Joshua, a type of Jesus, as the 'Captain of our Salvation' sent 2 spies to scope out the condition within the city. It was Rahab, the prostitute that lived in the wall, the most venerable and first defense to fall that took in the spies.

She stated that the people of the city know of the exploits of the Israelites, and this 40 years after the *Exodus* back in Egypt. What is notable is that the crossing of the Israelites occurred using the *Ark of the Covenant* that split the *Jordan River* as was the *Red Sea*. The Israelites crossed on dry ground and 12 *Stones* were placed in the middle of the river. Sadly, 2 tribes of Israel stayed on the eastern side of the *Jordan River*. There was that episode of *lo* that was a hard lesson for Israel to learn. It speaks that in order for YHWH's People to advance and conquer enemy territory and strongholds, there must be absolute obedience, truth and holiness. It is essentially YHWH that is fighting the battles and they are foremost spiritual ones. It is very interesting that in Joshua 5, before the siege of Jericho began, Joshua had a Christophany appearance of his very type and speaks to the spiritual of war.

'Now when Joshua was near Jericho, he looked up and saw a man standing in front of him with a drawn sword in his hand. Joshua went up to him and asked, "Are you for us or for our enemies? Neither, He replied, but as Commander of the Army of the LORD I have now come. Then Joshua fell facedown to the ground in reverence, and asked him, What message does my LORD have for his servant? The Commander of the LORD's Army replied, take off your sandals, for the place where you are standing is holy. And Joshua did so.' Now Joshua would have recognized this as the LORD, not a mere 'Man' as that was the protocol given to Moses on Mt. Sinai, etc.

The Martian Motif Connection

Interesting, Joshua defeated all the Canaanites except Bashan of the Golan Heights, the Jebusites of Jerusalem and the Philistines of Gaza. Joshua also cursed anyone who would rebuilt Jericho. In the case of Jericho, the Israelites had to be circumcised before crossing and then observe the Passover for the first time without *Mana*, as it had stopped by this time. YHVH instructed Joshua to command the Priests of Israel and all the fighting men to march around the Jericho in a 3-tier manner. There were to be 7 Priest leading the company of all the fighting men with the *Ark of the Covenant*. The occasion was to have the company march around the city. The Israelites were to march for 6 days around Jericho and on the 7th day march 7 times and then blow their 7 trumpets. With this, the vibrations and resonance of all the shouts of the Israelites made for the walls of Jericho to fall, except that of Rahab's.

If this seems like a nice bedtime story telling, consider the *2018 World Cup* match between the defender, Germany against Mexico. When the winning goal was made by Mexico, at that precise time in Mexico City, a 'false' earthquake was detected. It was not enough to tumble walls off of modern building but imagine the same veracity concentrated in one locale. As to the spirituality of warfare, the Apostle Paul in Galatians taught that the People of YHVH wrestle not with flesh and blood but with *Principalities, Powers* and *Stronghold* in high place, etc. What were the Israelites doing as they marched around Jericho in silence? They prayed, they were meditating. Their concentric force accumulated spiritually in a vortex of power and was released on the 7th day with their resonance through their shouting.

As the bricks no doubt probably had silica, or crystals, perhaps such a resonance in sound made them vibrate and dislocate their bonds from one another. Rahab and her family's part of the wall did not fall and were saved from the judgement and destruction of Jericho. Even the genealogy of Jesus notes this that her bloodline was incorporated into the very lineage of the Messiah. Thus, the next segment will explain the ancient city of Jericho that appears to also be construed with particular ley-lines that mirror the Cydonia, Mars pyramid complex. This study seeks to show that like many other ancient city-states, both ancient and modern on Earth, Jericho had a direct connection to Mars pyramid layouts. This 'Pleiadian' *Martian Motif* appears to be orientated with a 180 degrees horizontal inversion from that of the Cydonia, Mars and at a 45 degree arc.

Pertaining to the Cydonia, Mars anomalies, there are 3 main pyramid structures that comprise the *Martian Motif*. The main components of the *Martian Motif* consist of the famous *Face of Mars* that is purported to be the mausoleum of the former 'Rebel King' of *Nibiru*, a type of Lucifer personage. Then there is the giant *Pentagon Fortress* and the *Pleiadian Pyramid City*. These 3 structures triangulate each other and would make up the core of a large metropolitan city on Earth. What is astonishing is that such a *Martian Motif* seen implemented in the architecture of almost all the ancient civilizations on Earth is also incorporated in almost all major modern world capitals as well. This started, at least based on the archeological record after the *Flood of Noah* with Babylon and Sumer. The following are some geographic observations with respect to Jericho.

Even though Jericho is believed to be the 'oldest city on Earth', it is more likely that other ancient cities have been. How the *Martian Motif* is tied to the ley-lines of ancient cities, temples and structures is that perhaps the lost knowledge and connection of the Martian civilization was conveyed to the few and selected 'priestly' class on Earth that constitutes the *Secret Societies*, etc. This special class of humans are perhaps tasked at keeping the legacy, lifeline and bloodline operational. As noted, even now in the modern era, the same Cydonia, Mars motif is incorporated into the major capitals. The geometric ley-lines of Jericho's city layout is set to the Cydonia, Mars ley-lines in the following manner. The local area of the *Spanish Gardens* adjacent the city stadium has then a direct correlation to the *Martian Face* or 'Mausoleum' to Ala-lu as it outline. The second structure is the *Pleiadian Pyramid City Complex* of 7 buildings spanning over 10 miles in diameter on Mars.

Jericho to Jordan River

*365 arc seconds, map length
7 miles*

Jericho to Jerusalem, Temple Mount

12 nautical miles

Jericho to Mt. Sinai

*180 degrees heading
365 km*

It is suggested to have been a city complex or metropolis much like the one it correlates to the various financial centers of the world capitals that include centers of worship. The prominent star of this *Pleiadian* pattern in Jericho is that of the city fortress itself. The city layout does approximate a *Pleiades* elongated layout. However, due to erosion and deterioration, it is not possible to ascertain the 7 distinct markers that would correspond to the 7 Stars of the *Pleiades*. The only evidence seen is the orientation of the ancient city layout and the ley-line of the current streets that from the site approximates the line from *Alcyone* to *Atlas*, etc. The last structure of the *Martian Motif* is that of the 'Pentagon'. It is a 5-sided massive pyramid often referred to as the 'Diamond Pyramid'. In many of the ancient day correspondences, an actual fort stood in correspondence.

Such ancient sites as Jericho, even after the *Flood of Noah* continued to venerate such Martian 'gods' through temples placed in coordinates exacting of those in other worlds. The various temple layouts thus also were designed and made to correspond to the sacred ley-lines of the constellations of *Orion*, *Taurus*, the *Pleiades* for example. This cosmic template is replete in being some sort of standard pattern that is repeated in all ancient types of centers of worship. Such a *Martian Motif* is observed in all continents but is seen and can only be appreciated from the air. One might ask, what does all this have to do with today? Good question. The answer is what does it not. Consider the timing of the article by Kullok, the anomaly of the World Cup earthquake and pending Rapture. The story of Jericho is a greater metaphor. The world's *Jericho's* or 'cities of man' are about to be sieged and destroyed. Jericho stood in direct opposition to the will of YHVH and His People.

YHWH is about to unleash the 7-fold *Seals of Judgment* upon this world. The walls of the enemies of the *Cross of Christ* will soon be crumbling down but not before the Rapture of those Rahab types takes place. The Rapture of the *Bride of Christ* will be as Rahab being spared the wrath and judgment of Joshua. Then Jesus will return to set up His Kingdom and true *City of GOD*.
