

Custom “It’s A Disaster!” book project helps First Responders and Whole Communities

Fedhealth and Fedhealth Services Corp can help companies and organizations coordinate **community wide** bulk custom book and ebook projects to benefit first responders and the public.

Up to **300 extra full color glossy** pages can be added to Fedhealth’s 266-page [It’s A Disaster! preparedness and first aid manuals](#) so books (or PDF ebooks) can be personalized with your own title, logos, marketing data and more. Advertisements can help **pay for bulk orders ... PLUS ...** we share revenue with first responders and others (including paying referral commissions.)

For example, FSC will...

- Encourage advertisers to place traditional and Augmented Reality ads in books or ebooks giving discounts, freebies and coupon/QR codes on day-to-day products and services to help save book / ebook recipients money on supplies and daily needs;
- Discount ad rates tremendously so local and national advertisers can participate and ads **can help pay for custom books or ebooks!** And advertisers can pay half down then pay balance before we go to print – and we can do multiple versions for large communities, if needed.
- Coordinate local emergency data with area responders then Fedhealth will print and ship books in bulk so advertisers and partners can distribute paperbacks to employees, members, customers, event attendees and communities. Bulk PDF ebooks are faster, cheaper (as low as **\$1** each) and easier since it just involves a sharing a code.

Anchor partners can be recognized as the driving force behind each custom book project so they get all the credit and media play if desired.

Nothing is cast in stone and the goal is to generate excitement so advertisers line up year after year to be involved in something so beneficial to the community and something so affordable ~ especially since data and ads stay in front of people year-round helping them save money on day-to-day products and services.

FSC has other incentives available to benefit your project and the goodwill and branding potentials are limitless. This partnership helps our nation’s first responders and veterans, and it empowers families and builds whole community resiliency creating a win-win for everyone involved.

Please call Fedhealth today at **520-907-2153** to plan out a book or ebook project for YOUR company, organization and/or community and let’s make a difference together!

Stay safe,
