Geoff,

Thank you! You epitomize the best qualities of a teacher, educator, flight instructor. You have a gift and talent for understanding what is inside my head and are able to translate that into the needed coaching. I know you know all there is to be an exemplary CFI but knowing your students as individuals is the unique gift you bring to us.

I believe I will be a pilot. And today, I had fun and I felt confident. I am OK with knowing that I can be crisper in my turns and approaches. I know that I am another baby step closer to my goal.

Thanks for the pep talk and a great day flying.

Best,  
Karen
