SSgt Miller, of Det 5...now here from return from R & R, talked with a Major Taylor, MACV Compound, Hue this morning. The Major stated that the billets Villa for Det 5 personnel was "leveled", but no bodies were found in the debris. Further, a Specialist--Army-type had accompanied Mr Niles from the Villa in the jeep, and at the time they departed he said there were six or seven men in the billets villa. The Sp escaped to a Tropo site, then in turn was shuttled down to the MACV Compound.

Last night Mr Kreis, using his SSB gear was in contact with a "ham" in Phu Bai. The Phu Bai individual says he frequently works an area, (un-named) that has refugees...and he knows some AFVN personnel are among them. He was asked to call me via phone, but didn't.
