PUBLIC HEARING

A public hearing of the Board of Pilotage Commissioners was convened at 9:35 a.m. by Chairman Harry Dudley in the Alki Conference Room at 2901 Third Avenue, Seattle, Washington.

WAC 363-116-300: Pilotage Rates for the Puget Sound Pilotage District. RCW 88.16.035(4) requires the Board of Pilotage Commissioners to annually fix pilotage tariffs. Financial data used in this tariff hearing includes the previous year's audited financial statement in addition to some current-year unaudited data as well as some late-year projected data. The proposed rule filed with the Code Reviser reflects one new tariff category and a range of adjustments to be charged for pilotage services in the Puget Sound Pilotage District for the 2013 tariff year.

1) The Board will consider a new tariff category proposed by PSP called the *Variable Expense Component* (VEC). PSP is proposing a VEC charge to be levied by way of one or more charges up to the following amounts:

- a. surcharge of 17% of the total other charges in the tariff;
- b. per assignment charge of \$865;
- c. draft charge of \$26.33 per foot;
- d. tonnage charge of \$.0172 per gross ton;
- e. LOA charge of \$1.09 per foot;
- f. beam charge of \$7.55 per foot;
- g. waterway charge of \$728.56. (this would cover training and technology costs only).

PMSA is opposed to the addition of this new category of line items. The Board will consider from \$0.00 for each proposed charge (thus not creating a new category) up to the above-listed amounts.

2) The Board will consider an overall range of tariff adjustments between a decrease of 10% and an increase of 15% excluding the *Training Surcharge Category* and the *Transportation to Vessels on Puget Sound Category*. The low end of the range is proposed by the Pacific Merchant Shipping Association and the high end of the range is proposed by the Puget Sound Pilots. The 15% sought by PSP may be made up of across-the-board adjustments to the tariff and any or all of the VEC charges enumerated above. In total, PSP is not seeking increases in excess of the overall 15% range.

Also, the Board will consider an adjustment to the Transportation Charge portions only of the *British Columbia Direct Transit Charge*. PMSA proposes a 10% decrease. PSP proposes a 5.5% increase. The range being considered is between a decrease of 10% and an increase of 5.5%.

Subsequent to the filing of this proposed new rule, both PSP and PMSA submitted formal written proposals to the Board. PSP modified its request to reflect a change from the filed 15% increase to a 12% increase. The Board may adopt a rule that varies from the filed rule upon consideration of these proposals and all presentations and written comments from any interested party or member of the public.

All written documents submitted in accordance with the timetable established for tariff document submission were considered in today's tariff determination in addition to all other written and oral testimony from interested parties and members of the public.

Oral testimony on behalf of the Puget Sound Pilots was presented by Walt Tabler and Captain Andy Coe. Oral testimony on behalf of the Pacific Merchant Shipping Association was presented by Captain Mike Moore. Lou Paulsen from the Port of Tacoma also provided oral testimony. Presentations and rebuttals were made in accordance with previously established "ground rules". The public hearing was closed by Chairman Dudley at 1:10 p.m.
