

Healthcare

Texas Democrats believe that **every Texan should have access to affordable, quality healthcare.**

The **Affordable Care Act works**, millions have benefited, but we're not done yet. We have to fight to fill the Medicaid cover gap, because:

- our state remains the nation's capitol of the uninsured.
- Republicans continue to hurt almost a million Texans by refusing to act.
- Thousands of great jobs and billions in federal funds that could fuel our state economy are on the line.
