# Decorative Carvings

**E**xceptional quality and attention to detail!

**G**enuine Wood Hand Carvings offer the beauty and design of traditional and original wood carvings produced by Master Hand Carvers at an affordable price.

**T**hese hand carvings are denoted by an HC before the part # and produced from Limewood or Lindenwood, a wood that has been used for centuries by master carvers. It carves "like butter", creating sharp details and smooth surfaces. For amazing interior design results, these Genuine Wood Hand Carvings can be used alone or combined to create original cabinetry, door mantles, fireplace mantles, and ceiling and wall panels. All 'C' part #'s are carvings that are produced by machine.

Please note all sizes are approximate and are stated by Width x Height x Depth (or thickness).

**Finishing:** You should consult your paint dealer for the finish systems best suited for use in your region. We recommend that you select top quality paint.

1. Stain-and-Clear Finish:
  - a. The first coat should be a stain-and-sealer, which will both color and seal the surface. Choose an alkyd resin-based. Do not alter or thin. Never use a lacquer-based toner or any other lacquer-based finish.
  - b. The second coat may be a solvent-borne (oil-based, alkyd resin-based, polyurethane resin-based) or water-borne (latex resin-based) clear finish unaltered. Be sure this coat is compatible with the first coat.
2. Paint Finish:  
Seal products with a quality oil-based primer and no fewer than two topcoats of a solvent-based or latex resin-based paint, unaltered/unthinned.
3. All top, bottom and side edges must be coated with each and every coat that is applied to the face surfaces. All surfaces must be treated equally to assure uniform moisture exposure dimensional control.
