**CP4**

4 Channel HD Vehicle Recorder with integrated GPS, 6-Axis G-Sensor, and 3G/4G/LTE

**PROFESSIONAL IN-VEHICLE CAMERA SYSTEMS FOR  
COMMERCIAL FLEETS**

**CP4** The CGS Fleet-SmartWitness CP4 is the world's smallest and most advanced 4 channel mobile DVR. Connect up to 4 cameras and an optional LCD monitor to have full protection inside and out of your vehicle fleet. Built-in GPS and cellular connectivity enables the CP4 to be used for real-time vehicle tracking, live video and image transfer, and drive behavior reporting.

Developed to provide evidence of events leading up to and during a road traffic incident, the CP4 provides immediate notifications & photo/video evidence delivered to your desktop or mobile device in seconds!

- ⊖ Real-time HD image of your vehicle on up to 4 cameras (3x AHD, 1x D1)
- ⊖ Various cameras available for all views: road, driver, side, rear, or cargo view
- ⊖ Video sent in real-time via email or to your telematics application
- ⊖ Up to 128GB SD storage
- ⊖ Built-in GPS/Glonass , 6-axis G-sensor, Microphone, 3G/4G/LTE modem, thermometer with temp logic, and Wi-Fi (optional)
- ⊖ Integrated Power Supply with delay shutdown feature to continue recording for hours after ignition off
- ⊖ Three I/O triggers for connecting with various vehicle inputs (horn, door open, lights, etc).
- ⊖ USB/Serial inputs for interfacing with OBDII
- ⊖ Instant notification of safety-critical events via 3G/4G/LTE
- ⊖ Tamper-resistant locking cover/bracket available

## SD Card

CP4 makes constant recordings of video footage and drive data on a loop as the journey continues. This data can be accessed manually at any time by retrieving the CP4's SD card and inserting into your PC. The included analysis software allows you to view recorded video and drive data evidence of an event.

## SmartMail

SmartMail was developed with the small/medium fleet operator in mind. It delivers driver safety and protection information to you within moments of an incident taking place. Using CP4 with a cellular modem, safety-critical road events will automatically transmit an email notification with the video clip and event information enclosed.

## Telematics Integration

CGS Fleet-SmartWitness enables (CGS Telematics Services) to pull video, GPS data, audio, & G-Sensor data directly from KP1S onto our user platform adding GPS tracking software integrated convenience on our system. One invoice, one UI.
