

Without You

Without you, there is nothing
Without you, there is no sunshine in the day
Without you, there's no reason to even get up
Without you
Without you

Without you, there is no hope
Without you, there is no salvation
Without you, there is no heaven
Without you
Without you

Every day, every day, every day, every day...

You gave me shelter
You saved me from the cold
You brought life to this world
You gave me dreams to hold

And, every time I said "I love you"
Every time you held my hand
I hope these made you happy
They made me a better man

And, like the currents of the river
Follow the river to the end
Every breath and every heart beat
I'll be there 'til the end

Without you, there is no future
Without you, there is no heaven
Without you, there is nothing
Without you
Without you

So, every day, every day, every day...
