

EXAM SIMULATOR EVALUATION ADVISEMENT **VOLUME 2**

General instructions for the Simulation Evaluation:

1. The evaluation excludes any tasks related to Master Pilot Exchange or Watch Turnover.
2. You are acting as the Pilot during the evaluation.
3. You will have a Captain and a Helmsperson with you on the bridge.
4. The ECDIS will provide a heading line and a course-over-ground vector. You will not be permitted to make any adjustments. Zooming and offsets will be handled by the Captain at the Pilots direction.
5. The radars are secured and are not available for use. There will be no restricted visibility during the evaluation.
6. Your exam will be recorded from the moment you walk onto the bridge.

Familiarization Session

You will be given one hour conning time in the simulator on the evening prior to your evaluation session. During this familiarization session, there will be a Captain and a Helmsperson with you on the bridge. You will receive the full Simulation Packet immediately following your familiarization session.
