

## Much to be Thankful for!!

 Custom Creations

### Expanded Workshop!

Officially, the old garage is now the Workshop! Very thankfully, all Sandy took from us was power. We escaped without any damage & we are **very thankful!!**

What a difference not working around a car! Now, everything truly has its place: *table saws, sanders, clamps, benches, and, an entire wall for the odd-sized wood and antler pieces.* Wouldn't you know, there's even room for Jack 😊

### Redesigned Website !

When we launched 13-months ago, we really wanted to show off the versatility of Jack's work: highly customized, more functional and, everything in between. ..lots of pictures, and a little about us!

Today [www.customcreationsNY.com](http://www.customcreationsNY.com) does it all: clearly distinguishes between custom-projects ([Portfolio](#)) and the more functional pieces ([Seasonal](#)), and provides convenient options for you, our customers, to make purchases and communicate with us when you see something that inspires you.

Please stop by the [newly formatted site](#), shop for those one-of-a-kind Holiday gifts., and please, let us know what you think! [we want your feedback](#)

*We are truly thankful for health, family, the ability to create one of a kind items and, serve our customers and their individual needs.*

**Happy Holidays from CCNY!**
