Resort & Golf Course
Summer Updates

June 2018

Hello from sunny Florida, I hope everyone is having a great summer!!! It's been another busy month here at TR. Lots of projects going on and getting completed in-between the rains.

The pavilion roof on *Golf View*, bridge roof on golf course and the shelter roof on # 6 were all primed and painted this summer. They look great!!!!

We removed the old tables and chairs from the porch of the Paul Ruth building and replaced them with some nice outdoor seating. We also moved the soda machine over to the Busch Hall Porch.

Both double doors on Busch Hall are being replaced with new, we also replaced the single door of the Citrus Center.

Busch Hall stage had the rear carpet and paneling replaced with drywall (painted flat black) and also new acoustical ceiling tiles to help with sound quality

The bulletin board was replaced on Golf View , along with new trash can and gas grill

Our new well is online now after a lengthy Permit Process. Everything is performing very well. (no pun intended)

We removed the old wooden ramp behind the Hobby House and replaced with a new sidewalk that starts at the Citrus Center and ends at the TR Times

3 New large outdoor fans were installed at the Snack Schack pavilion

The Paul Rife room is now completely rebuilt and complete. It looks great!!

See you next Month
